

00:02:47.670 --> 00:02:50.100

Kelly Sweeney: Um, anyway, I want

45

00:02:50.160 --> 00:02:53.730

Kelly Sweeney: To thank all of you for your interest in this topic.

46

00:02:54.030 --> 00:03:01.620

Kelly Sweeney: It's very, very, very important to any of us who are on septic systems and the fact that in the middle of this code crisis.

47

00:03:02.010 --> 00:03:03.270

19705293955: And I've now seen the new

48

00:03:03.270 --> 00:03:21.960

Kelly Sweeney: forms that Jackie has to go through for anyone that wants to do even limited opening. She is a very, very busy woman Commissioner Marcella has probably been on more conference calls in the last month, then she would ever like to admit to or has experienced in her whole

49

00:03:21.960 --> 00:03:22.500

19704711960: Life.

50

00:03:22.680 --> 00:03:23.790

Kelly Sweeney: And the fact that they

51

00:03:24.030 --> 00:03:24.960

Kelly Sweeney: Participated

52

00:03:25.110 --> 00:03:28.890

Kelly Sweeney: Today and Paul Clarkson, I don't know if he's on but he wanted to listen in.

53

00:03:29.910 --> 00:03:33.330

Kelly Sweeney: It's just fantastic. And we also have Greg.

54

00:03:33.360 --> 00:03:36.510

Kelly Sweeney: teeter from park the water district listening in.

55

00:03:37.800 --> 00:03:44.310

Kelly Sweeney: He's very interested in the different issues that are facing particularly Twin Lakes village.

56

00:03:44.610 --> 00:03:45.840

19705293955: So at this point.

57

00:03:45.930 --> 00:03:50.850

Kelly Sweeney: Commissioner Marcella if you're on the line. I would love to have your updates.

58

00:03:51.270 --> 00:03:51.810

Kelly Sweeney: Like to get

59

00:03:52.110 --> 00:03:53.550

Kelly Sweeney: To bed and

60

00:03:53.610 --> 00:03:58.110

Kelly Sweeney: If you'd like to provide any other updates and if you have anything new on the fire station.

61

00:04:06.000 --> 00:04:07.680

19705293955: And you may want to unmute yourself.

62

00:04:12.720 --> 00:04:13.620

Kelly Sweeney: Which number ourselves.

63

00:04:16.590 --> 00:04:20.190

Kelly Sweeney: She told me yesterday she was going to participate.

64

00:04:22.950 --> 00:04:29.490

Kelly Sweeney: Maybe what we'll do. I saw that Chris Boyd is on the line. Chris, do you have any updates on the fire station.

65

00:04:30.210 --> 00:04:34.800

Chris Floyd: Yes. Good morning, everybody. Good to see some of y'all smiling face.

66

00:04:36.330 --> 00:04:40.620

Chris Floyd: In terms of the status for the sudden fire station project. We went

67

00:04:40.650 --> 00:04:47.850

Chris Floyd: Through the RFP process for the project manager and have narrowed

68

00:04:48.510 --> 00:04:55.590

Chris Floyd: We were fortunate to get six bids on that several which were highly qualified folks. And so we've narrowed it down to

69

00:04:55.590 --> 00:05:12.120

Chris Floyd: Two at at this point in time and have submitted questions or will be submitting follow up questions with them and potentially an interview to to get to a point where you know we select the, the one that's going to help us take this project forward.

70

00:05:13.170 --> 00:05:13.380

Chris Floyd: Our

71

00:05:13.410 --> 00:05:15.450

Chris Floyd: Goal. Our goal was

72

00:05:15.480 --> 00:05:18.120

Chris Floyd: Obviously, to have them in place already

73

00:05:20.490 --> 00:05:21.630

Chris Floyd: Covered 19 kind of

74

00:05:21.810 --> 00:05:22.500

Chris Floyd: Taken over

75

00:05:22.530 --> 00:05:23.160

Most of

76

00:05:24.210 --> 00:05:25.650

Chris Floyd: Folks plans and

77

00:05:25.650 --> 00:05:46.470

Chris Floyd: Intentions so we've been delayed in getting that part finalized. But we're anticipating being able to get the, the new project manager selected by the end of the month, so that then we can quickly move into the RFP process for the new general contractor.

78

00:05:46.890 --> 00:05:48.960

Cathy's : Who will actually be working to

79

00:05:49.020 --> 00:05:50.340

Complete the project.

80

00:05:51.450 --> 00:06:06.480

Chris Floyd: And so that's kind of where we are at this point in time. And I'm happy to try and answer questions. I might not have the information that you'd like that, you know, if there are other questions in terms of the status of the project. I'll be glad to try

81

00:06:08.220 --> 00:06:19.200

Kelly Sweeney: Chris, I have one quick question. I know that that the modelers had been inspected and everything turned out well has, has there been any

82

00:06:21.600 --> 00:06:24.300

Kelly Sweeney: positive progress on possibly getting

83

00:06:25.050 --> 00:06:27.330

Kelly Sweeney: Modular for the station.

84

00:06:28.890 --> 00:06:37.980

Chris Floyd: Hey, Kelly Yes, we're still in communication with Hong crafters on the measures and as you mentioned, we were able to confirm that

85

00:06:38.970 --> 00:06:51.300

Chris Floyd: They are in decent shape and approximately 90% completed so we are in communications with home crafters about you know what the next step. Maybe we've asked them for documentation as to

86

00:06:52.320 --> 00:06:59.310

Chris Floyd: You know, any amounts that may be still owed on the modules. So that's kind of where we are with that.

87

00:07:00.360 --> 00:07:13.440

Chris Floyd: But I think part of that in terms of actually getting them and moving them up that that will proceed until we actually get the project manager in place and have a have a line on who the general contractor.

88

00:07:13.920 --> 00:07:18.600

Chris Floyd: You know, contact me, baby. Yeah, communications on that end are definitely still proceeding.

89

00:07:19.440 --> 00:07:30.060

Kelly Sweeney: Great. And my other question is, any update and I know there was a final concrete test result. But it hadn't been interpreted yet.

90

00:07:31.080 --> 00:07:34.380

Chris Floyd: Yeah, that that's true. I'm not sure what the statuses. The

91

00:07:34.380 --> 00:07:45.000

Chris Floyd: final word on that. I know that there's some analysis going on. And again, sort of, that we would want the new project manager to to assist in reviewing

92

00:07:45.420 --> 00:07:46.590

Kelly Sweeney: Some of that information as

93

00:07:46.590 --> 00:07:56.550

Chris Floyd: Well, so we don't have unqualified people like me trying to determine whether the concrete testing procedure appropriate to accept or if they're outstanding questions.

94

00:07:57.810 --> 00:08:01.080

Kelly Sweeney: Okay, one more quick reminder we have some new

95

00:08:01.080 --> 00:08:03.480

Kelly Sweeney: People on the line, please mute.

96

00:08:03.510 --> 00:08:06.300

Kelly Sweeney: Your phone and mute your video.

97

00:08:06.360 --> 00:08:09.750

Kelly Sweeney: Because we're getting your background noise and conversation.

98

00:08:09.810 --> 00:08:12.210

Kelly Sweeney: And this is all being recorded, and you may not want to

99

00:08:12.360 --> 00:08:12.840

Kelly Sweeney: Do that.

100

00:08:17.070 --> 00:08:17.820

Kelly Sweeney: Oh, go ahead. Chris

101

00:08:17.880 --> 00:08:23.940

Chris Floyd: I was just gonna say, I just got a text from Kayla Saying that I guess she was having technology.

102

00:08:24.030 --> 00:08:27.120

Chris Floyd: Issues. She is gone now. So she should

103

00:08:27.120 --> 00:08:28.650

Chris Floyd: Be in line shortly.

104

00:08:35.370 --> 00:08:37.110

Kelly Sweeney: Does anyone else have a question.

105

00:08:37.110 --> 00:08:38.130

Kelly Sweeney: For Chris Floyd

106

00:08:43.980 --> 00:08:44.280

19705293955: The line.

107

00:08:47.280 --> 00:08:49.110

19705293955: Maybe what we'll do is we'll have

108

00:08:49.110 --> 00:08:51.630

Kelly Sweeney: Jackie go and and and then

109

00:08:52.170 --> 00:08:53.550

Kelly Sweeney: When Commissioner Marcellus.

110

00:08:53.550 --> 00:08:58.560

Kelly Sweeney: On the line. She said a convenient time she can interrupt or

111

00:08:58.860 --> 00:09:02.280

Kelly Sweeney: Or we'll have her go at the end. Someone just chatted

112

00:09:05.460 --> 00:09:07.320

Jackie Littlepage - Lake County PH/EH: That was me. I was just asking if we could

113

00:09:07.320 --> 00:09:11.820

Jackie Littlepage - Lake County PH/EH: Please have everyone leave their name in the chat box so that we can have a roll call.

114

00:09:13.890 --> 00:09:14.160

Jackie Littlepage - Lake County PH/EH: If

115

00:09:16.110 --> 00:09:17.370

Jackie Littlepage - Lake County PH/EH: People call in and

116

00:09:18.000 --> 00:09:21.690

Jackie Littlepage - Lake County PH/EH: Send me a Kelly So Kelly can keep track of.

117

00:09:21.840 --> 00:09:22.500

Jackie Littlepage - Lake County PH/EH: Those folks.

118

00:09:24.330 --> 00:09:24.990

Jackie Littlepage - Lake County PH/EH: Is called him.

119

00:09:26.220 --> 00:09:26.820

19705293955: Perfect.

120

00:09:27.870 --> 00:09:28.230

Kelly Sweeney: Okay.

121

00:09:31.950 --> 00:09:33.480

19705293955: Okay, um,

122

00:09:33.510 --> 00:09:34.680

19705293955: Anyone who's

123

00:09:34.710 --> 00:09:36.930

Kelly Sweeney: Who's on the phone just

124

00:09:36.990 --> 00:09:39.570

Kelly Sweeney: Send me an email after or a text so

125

00:09:39.570 --> 00:09:41.220

Kelly Sweeney: I can add you to the list for

126

00:09:42.150 --> 00:09:44.010

19705293955: People that said, let's

127

00:09:44.100 --> 00:09:46.170

Kelly Sweeney: Unless Commissioner Marcel on the line.

128

00:09:48.960 --> 00:09:50.130

19705293955: Now, yeah. Okay.

129

00:09:50.220 --> 00:09:51.330

Kelly Sweeney: Um, we will go

130

00:09:51.330 --> 00:09:56.070

Kelly Sweeney: Ahead and have Jackie little page is I'm

131

00:09:56.100 --> 00:09:59.640

Kelly Sweeney: The director of environmental health for Lake

132

00:09:59.640 --> 00:10:00.810

Kelly Sweeney: County and

133

00:10:02.190 --> 00:10:02.490

Kelly Sweeney: Like

134

00:10:02.580 --> 00:10:06.870

Kelly Sweeney: A tech repairman she is probably one of the busiest people in town.

135

00:10:07.650 --> 00:10:08.910

19705293955: Is taking the time to

136

00:10:08.910 --> 00:10:10.680

Kelly Sweeney: visit with us today about

137

00:10:10.710 --> 00:10:12.750

Kelly Sweeney: Septic Hughes. So take it away, Jeff.

138

00:10:12.960 --> 00:10:15.540

Kelly Sweeney: And if you want me. You can either take

139

00:10:15.900 --> 00:10:16.590

Kelly Sweeney: The screen.

140

00:10:16.650 --> 00:10:17.160

Kelly Sweeney: And show

141

00:10:17.250 --> 00:10:19.290

Kelly Sweeney: Things, or I can pull up

142

00:10:19.560 --> 00:10:20.910

Kelly Sweeney: Things as you talk about them.

143

00:10:23.370 --> 00:10:29.070

Jackie Littlepage - Lake County PH/EH: Yeah, if you could just share the real estate taught packets

144

00:10:30.450 --> 00:10:33.540

Jackie Littlepage - Lake County PH/EH: That would be greatly appreciated. And we'll get to that here in just a minute.

145

00:10:34.170 --> 00:10:34.650

Jackie Littlepage - Lake County PH/EH: Okay.

146

00:10:34.920 --> 00:10:38.010

Jackie Littlepage - Lake County PH/EH: If, at the end of this, if anybody has any questions that

147

00:10:39.210 --> 00:10:43.080

Jackie Littlepage - Lake County PH/EH: Commissioner Marcella doesn't cover about co good, you know, I can certainly do my best to try

148

00:10:43.080 --> 00:10:44.820

Jackie Littlepage - Lake County PH/EH: To respond to those public health.

149

00:10:46.410 --> 00:10:46.860

Jackie Littlepage - Lake County PH/EH: And then

150

00:10:46.920 --> 00:10:48.210

Jackie Littlepage - Lake County PH/EH: I also emailed

151

00:10:48.990 --> 00:10:49.950

Jackie Littlepage - Lake County PH/EH: Me this morning.

152

00:10:49.980 --> 00:10:51.150

A new website.

153

00:10:53.190 --> 00:10:54.900

19705293955: That will that

154

00:10:54.960 --> 00:10:58.620

Jackie Littlepage - Lake County PH/EH: Our database for all of our code information going

155

00:10:58.620 --> 00:10:59.310

Forward.

156

00:11:00.960 --> 00:11:03.090

Jackie Littlepage - Lake County PH/EH: We've tried to listen to the community needs.

157

00:11:03.150 --> 00:11:08.520

Jackie Littlepage - Lake County PH/EH: And it sounds like the folks were asking for a platform outside of Facebook.

158

00:11:08.580 --> 00:11:09.360

19705293955: A lot of people

159

00:11:09.420 --> 00:11:12.210

19705293955: Do not want to create a Facebook account and have to

160

00:11:12.210 --> 00:11:13.080

Jackie Littlepage - Lake County PH/EH: Go there for

161

00:11:13.320 --> 00:11:14.280

19705293955: Kobe updates.

162

00:11:14.640 --> 00:11:16.590

Jackie Littlepage - Lake County PH/EH: So there is a new website.

163

00:11:16.980 --> 00:11:17.730

Jackie Littlepage - Lake County PH/EH: And

164

00:11:17.790 --> 00:11:19.980

19705293955: Available and that

165

00:11:20.610 --> 00:11:21.750

Jackie Littlepage - Lake County PH/EH: Addresses mail email.

166

00:11:21.780 --> 00:11:23.250

19705293955: To Kelly and she can help push

167

00:11:23.250 --> 00:11:23.790

Jackie Littlepage - Lake County PH/EH: That out

168

00:11:33.480 --> 00:11:35.850

Kelly Sweeney: Larry share screen.

169

00:11:43.980 --> 00:11:45.450

17192212322: Did it work. Can people see it.

170

00:11:45.540 --> 00:11:45.870

Okay.

171

00:11:48.480 --> 00:11:48.870

17192212322: Great.

172

00:11:50.550 --> 00:11:52.500

17192212322: One of the other things that I was asked.

173

00:11:52.500 --> 00:11:52.890

17192212322: To

174

00:11:53.820 --> 00:11:54.810

Jackie Littlepage - Lake County PH/EH: join your team today.

175

00:12:02.970 --> 00:12:04.650

19705293955: Right now we are

176

00:12:05.790 --> 00:12:17.070

Jackie Littlepage - Lake County PH/EH: Processing about two to three real estate transactions per month that are associated with a septic system and a well and we're finding that some of the properties

177

00:12:17.190 --> 00:12:17.580

Jackie Littlepage - Lake County PH/EH: Have

178

00:12:17.700 --> 00:12:19.620

17192212322: Older septic systems that may not

179

00:12:19.620 --> 00:12:24.060

Jackie Littlepage - Lake County PH/EH: Have ever been documented or permitted in the county and they might not be in

180

00:12:25.110 --> 00:12:26.820

Jackie Littlepage - Lake County PH/EH: Operating conditions.

181

00:12:26.880 --> 00:12:27.300

17192212322: They might

182

00:12:27.690 --> 00:12:28.770

Jackie Littlepage - Lake County PH/EH: Be a failure and

183

00:12:28.920 --> 00:12:29.820

Leading repair.

184

00:12:31.230 --> 00:12:31.620

17192212322: So we're

185

00:12:32.220 --> 00:12:35.250

17192212322: In the final inspection program. The goal is

186

00:12:35.250 --> 00:12:37.170

Jackie Littlepage - Lake County PH/EH: To identify

187

00:12:37.500 --> 00:12:38.520

Jackie Littlepage - Lake County PH/EH: Those systems that are

188

00:12:38.520 --> 00:12:40.740

Jackie Littlepage - Lake County PH/EH: Undocumented or unpermitted

189

00:12:41.310 --> 00:12:42.210

Jackie Littlepage - Lake County PH/EH: And have

190

00:12:42.270 --> 00:12:42.660

Jackie Littlepage - Lake County PH/EH: A

191

00:12:42.900 --> 00:12:47.130

Jackie Littlepage - Lake County PH/EH: trained and certified inspectors then inspect the system.

192

00:12:48.090 --> 00:12:49.170

17192212322: Documented

193

00:12:49.440 --> 00:12:50.730

17192212322: And help us then.

194

00:12:51.180 --> 00:12:57.630

Jackie Littlepage - Lake County PH/EH: Add some records to the county files so that we know what kind of a septic system is on that.

195

00:12:58.890 --> 00:12:59.220

Jackie Littlepage - Lake County PH/EH: And

196

00:12:59.280 --> 00:13:01.800

Jackie Littlepage - Lake County PH/EH: We can also then check and see if the system is

197

00:13:01.800 --> 00:13:04.650

Jackie Littlepage - Lake County PH/EH: properly sized for the house and for the

198

00:13:04.650 --> 00:13:06.960

17192212322: entrepreneur in residence.

199

00:13:07.770 --> 00:13:08.070

Jackie Littlepage - Lake County PH/EH: And

200

00:13:08.100 --> 00:13:14.250

Jackie Littlepage - Lake County PH/EH: We know that that can change at the time of sales. So we also try to help make that

201

00:13:14.610 --> 00:13:16.800

Jackie Littlepage - Lake County PH/EH: System size available to the

202

00:13:16.830 --> 00:13:24.780

Jackie Littlepage - Lake County PH/EH: New buyers so that they can then understand if they're buying a house and a system that is properly sized for what their needs are.

203

00:13:25.140 --> 00:13:27.060

17192212322: Or what they intend on doing

204

00:13:28.920 --> 00:13:29.700

Jackie Littlepage - Lake County PH/EH: There's going to

205

00:13:29.940 --> 00:13:31.020

Jackie Littlepage - Lake County PH/EH: Be bedroom home.

206

00:13:31.350 --> 00:13:33.480

Jackie Littlepage - Lake County PH/EH: But they want to build on and add a

207

00:13:33.480 --> 00:13:34.830

Jackie Littlepage - Lake County PH/EH: Fourth or fifth bedroom in the

208

00:13:34.830 --> 00:13:37.200

Jackie Littlepage - Lake County PH/EH: Future, they can kind of know up

209

00:13:37.200 --> 00:13:37.650

Jackie Littlepage - Lake County PH/EH: Front.

210

00:13:38.070 --> 00:13:39.570

17192212322: How the septic system.

211

00:13:39.570 --> 00:13:39.900

Jackie Littlepage - Lake County PH/EH: Errors.

212

00:13:40.620 --> 00:13:41.670

Jackie Littlepage - Lake County PH/EH: Going to need any major

213

00:13:42.420 --> 00:13:44.280

Jackie Littlepage - Lake County PH/EH: To and then they can

214

00:13:45.000 --> 00:13:45.840

Jackie Littlepage - Lake County PH/EH: Start planning.

215

00:13:46.050 --> 00:13:47.850

17192212322: For that additional to

216

00:13:47.880 --> 00:13:49.080

Jackie Littlepage - Lake County PH/EH: Either add a

217

00:13:50.100 --> 00:13:50.340

Jackie Littlepage - Lake County PH/EH: Or

218

00:13:51.090 --> 00:13:51.600

17192212322: Created

219

00:13:51.660 --> 00:13:52.260

Jackie Littlepage - Lake County PH/EH: To make their

220

00:13:52.290 --> 00:13:52.950

New bedroom.

221

00:13:55.980 --> 00:13:56.580

17192212322: trainings and

222

00:13:56.820 --> 00:13:58.650

Jackie Littlepage - Lake County PH/EH: Things that are documented.

223

00:13:58.740 --> 00:14:00.720

Jackie Littlepage - Lake County PH/EH: And struggling with

224

00:14:01.260 --> 00:14:01.590

Rocky

225

00:14:08.220 --> 00:14:08.700

Jackie Littlepage - Lake County PH/EH: Homeowners

226

00:14:08.730 --> 00:14:12.180

Jackie Littlepage - Lake County PH/EH: That want to sell. So we have tried

227

00:14:12.210 --> 00:14:20.280

Jackie Littlepage - Lake County PH/EH: To work on a case by case scenario property to property and it all depends on what the inspectors finding on the system.

228

00:14:20.850 --> 00:14:21.990

Jackie Littlepage - Lake County PH/EH: If it's not in a

229

00:14:22.200 --> 00:14:23.400

Jackie Littlepage - Lake County PH/EH: Great state of failure.

230

00:14:23.670 --> 00:14:26.160

Jackie Littlepage - Lake County PH/EH: Than sometimes then allowed us

231

00:14:26.790 --> 00:14:27.300

Jackie Littlepage - Lake County PH/EH: To be

232

00:14:27.360 --> 00:14:29.580

Jackie Littlepage - Lake County PH/EH: Completed field and

233

00:14:31.380 --> 00:14:33.300

19705293955: Components that can't be inspected during winter.

234

00:14:39.390 --> 00:14:39.690

19705293955: Yes.

235

00:14:40.290 --> 00:14:43.320

Kelly Sweeney: I apologize for interrupting. If there's any way you

236

00:14:43.320 --> 00:14:43.980

19705293955: Could be.

237

00:14:44.100 --> 00:14:45.390

19705293955: A little closer.

238

00:14:45.690 --> 00:14:48.060

Kelly Sweeney: And I would like to say one more time to

239

00:14:48.090 --> 00:14:50.760

Kelly Sweeney: Everyone who is on the phone.

240

00:14:51.060 --> 00:14:52.560

Kelly Sweeney: Please mute your phones for

241

00:14:52.800 --> 00:14:54.660

Kelly Sweeney: A lot of wind noise.

242

00:14:54.720 --> 00:15:02.460

Kelly Sweeney: And also, if you are on video please your youth, youth your video. Thank you.

243

00:15:04.470 --> 00:15:05.940

Kelly Sweeney: Keep going. Jackie, sorry.

244

00:15:06.720 --> 00:15:07.500

Jackie Littlepage - Lake County PH/EH: No problem.

245

00:15:08.550 --> 00:15:10.890

Jackie Littlepage - Lake County PH/EH: So we do have some agreements that

246

00:15:11.340 --> 00:15:28.080

Jackie Littlepage - Lake County PH/EH: The agents can try to assist their buyers and sellers with that can allow for a septic system to be inspected after a sale. They do have to be notarized and then recorded at the clerk's office in the courthouse.

247

00:15:29.550 --> 00:15:30.000

Jackie Littlepage - Lake County PH/EH: Or

248

00:15:31.320 --> 00:15:36.180

Jackie Littlepage - Lake County PH/EH: Possible repair that can be completed by the new buyers after the point of sale.

249

00:15:36.720 --> 00:15:52.590

Jackie Littlepage - Lake County PH/EH: So again, we're trying to have as much work done before the sale is completed as possible. But there are some situations, and we do understand that, we need to be flexible and work with buyers and sellers to help accommodate each properties needs.

250

00:15:56.070 --> 00:16:03.120

Jackie Littlepage - Lake County PH/EH: The ultimate goal of this is also to protect your groundwater we're finding a lot of septic systems that are

251

00:16:04.920 --> 00:16:16.050

Jackie Littlepage - Lake County PH/EH: Existing and not meeting current or modern day safety regulations to protect your groundwater or your well water and possibly your neighbors wells.

252

00:16:17.430 --> 00:16:30.870

Jackie Littlepage - Lake County PH/EH: So there is currently a 100 foot step back from all wells to a septic system and uniquely and the town of Twin Lakes. There are many, many septic systems overlapping

253

00:16:31.470 --> 00:16:47.100

Jackie Littlepage - Lake County PH/EH: And wells that overlap and therefore we have a unique situation and specifically the village, but also it's kind of compounding issue. Growing up in the pan arc area on some of the smaller lot

254

00:16:47.970 --> 00:16:58.710

Jackie Littlepage - Lake County PH/EH: Where existing homes when their septic system fails and they need to have a new septic system engineered and installed on their property. They're finding that

255

00:16:59.220 --> 00:17:19.350

Jackie Littlepage - Lake County PH/EH: There are lots are challenging and that they may not be able to fit a full size septic system or they don't have enough room, and then we're having to work through some again case by case scenario variants processes to try to accommodate the needs for existing homes.

256

00:17:20.460 --> 00:17:33.420

Jackie Littlepage - Lake County PH/EH: That can also then create some issues for vacant lots where people want to purchase and build, they may not be able to build on a lot if there's not enough room to meet the setback requirements.

257

00:17:35.250 --> 00:17:46.650

Jackie Littlepage - Lake County PH/EH: There are road setbacks their property boundary setbacks and then again we sent the wealth that back is the greatest one it's 100 feet from the septic system tool. Well,

258

00:17:51.030 --> 00:17:53.640

Jackie Littlepage - Lake County PH/EH: The transfer title program is also trying to

259

00:17:55.800 --> 00:17:56.220

Jackie Littlepage - Lake County PH/EH: Help

260

00:17:58.020 --> 00:18:04.680

Jackie Littlepage - Lake County PH/EH: Regulate the inspectors, so we're trying to make sure that they're certified they're getting the training that's required to ensure that

261

00:18:05.490 --> 00:18:15.480

Jackie Littlepage - Lake County PH/EH: Each family or buyer, seller says having their septic system. And second is getting the same quality of care, the same

262

00:18:16.470 --> 00:18:32.850

Jackie Littlepage - Lake County PH/EH: Checklist of inspection items looked at from system to system to keep it all standardized. So we're trying to make sure that only certified inspectors are conducting these transfer of title inspection.

263

00:18:33.720 --> 00:18:53.070

Jackie Littlepage - Lake County PH/EH: So see that there's a lot of questions that they have to fill out in the inspection report and they're essentially certifying the system, stating that it is either a state of operation and or a state of failure and he prepares for

264

00:18:54.720 --> 00:18:59.280

Jackie Littlepage - Lake County PH/EH: An unknown state that needs further investigation or possibly replace

265

00:19:01.530 --> 00:19:10.170

Jackie Littlepage - Lake County PH/EH: So we are working with all the inspectors to make sure that, again, they're getting the training that they need to be able to inspect these systems.

266

00:19:10.620 --> 00:19:18.360

Jackie Littlepage - Lake County PH/EH: And again, we're finding that wintertime up here in Lake County can be very difficult and challenging for our inspectors.

267

00:19:19.260 --> 00:19:30.870

Jackie Littlepage - Lake County PH/EH: So please bear with them. They're doing the best they can to investigate and inspect what makes him and then we might have to have parts of pieces inspected in a later time spring.

268

00:19:38.340 --> 00:19:44.160

Jackie Littlepage - Lake County PH/EH: Some of the questions that we have received in the past where regarding

269

00:19:47.520 --> 00:19:50.310

Jackie Littlepage - Lake County PH/EH: There's a suggested amount of

270

00:19:51.870 --> 00:19:58.440

Jackie Littlepage - Lake County PH/EH: Time we have had a couple of sales go through that set aside.

271

00:19:59.670 --> 00:20:11.820

Jackie Littlepage - Lake County PH/EH: Approximately 15 to \$20,000 in escrow to assist with any repairs or inspection means at a springtime sale.

272

00:20:12.420 --> 00:20:29.490

Jackie Littlepage - Lake County PH/EH: When the sale couldn't go through during the wintertime, because we couldn't get a inspection completed and those are kind of challenging because sometimes the banks will not allow that kind of pain escrow or that kind of an agreement so

273

00:20:30.090 --> 00:20:32.400

Jackie Littlepage - Lake County PH/EH: Really have to work with community agent.

274

00:20:32.610 --> 00:20:43.950

Jackie Littlepage - Lake County PH/EH: on a case by case scenario and defer to them and their legal teams for support as to whether or not this buyer someone's transaction.

275

00:20:45.570 --> 00:21:05.730

Jackie Littlepage - Lake County PH/EH: Will be able to make that kind of a decision like saving money in an escrow account to have worked on after fail the monetary amount has come up multiple times in questions to me of where did we pull up 15 to \$20,000 that's just the average that we have been

276

00:21:06.900 --> 00:21:16.890

Jackie Littlepage - Lake County PH/EH: Used by the buyers and sellers as an average. So what county public health agency like government. We do not have a requirement. We do not have

277

00:21:18.030 --> 00:21:30.600

Jackie Littlepage - Lake County PH/EH: Really a recommendation that we would suggest to you because we don't really have anything to do with how much the engineers charge, how much the contractors charge that is all set.

278

00:21:31.620 --> 00:21:33.510

Jackie Littlepage - Lake County PH/EH: By the engineers and contractors, so

279

00:21:34.770 --> 00:21:40.650

Jackie Littlepage - Lake County PH/EH: And again, every property is being in geology and topography.

280

00:21:41.700 --> 00:21:42.600

Jackie Littlepage - Lake County PH/EH: Your setback.

281

00:21:43.740 --> 00:21:53.100

Jackie Littlepage - Lake County PH/EH: So there are many different factors that go into defining a separate system. So every homeowner, and he really needs to work with our engineers contractors

282

00:21:54.150 --> 00:22:05.220

Jackie Littlepage - Lake County PH/EH: How much does it cost to repair or replace them on their property and try the best amount of money set aside or

283

00:22:06.990 --> 00:22:10.500

Jackie Littlepage - Lake County PH/EH: escrow and sale for brokers, we're taking

284

00:22:16.500 --> 00:22:28.140

Jackie Littlepage - Lake County PH/EH: Never some village in particular has had no plastic regarding Lester system or what are some options that can go in there.

285

00:22:29.340 --> 00:22:41.400

Jackie Littlepage - Lake County PH/EH: All of those with the engineers and we would have to work very closely with never the engineer engineers are that will be designing systems on

286

00:22:42.180 --> 00:22:59.160

Jackie Littlepage - Lake County PH/EH: The State of Colorado has been very understanding in the situation of the village overlapping status system as well and is ready and prepared to sit down and work with work with engineers on whatever that might be.

287

00:23:00.300 --> 00:23:04.980

Jackie Littlepage - Lake County PH/EH: But again, it kind of depends on if you ever get to that state where

288

00:23:06.210 --> 00:23:07.140

Jackie Littlepage - Lake County PH/EH: There is a

289

00:23:08.400 --> 00:23:10.350

Jackie Littlepage - Lake County PH/EH: funding source and

290

00:23:12.510 --> 00:23:19.560

Jackie Littlepage - Lake County PH/EH: viable plan to move forward with designing costumes for a water treatment.

291

00:23:23.820 --> 00:23:28.740

Larry Marcum: Hey, Jackie, do you have a headset that you could put on maybe we'd be able to hear more clearly.

292

00:23:30.480 --> 00:23:32.160

Jackie Littlepage - Lake County PH/EH: Don't. I'm sorry.

293

00:23:32.820 --> 00:23:34.920

Larry Marcum: Okay, that's fine. Just

294

00:23:35.970 --> 00:23:36.540

Larry Marcum: Just check

295

00:23:37.020 --> 00:23:38.670

Jackie Littlepage - Lake County PH/EH: Out that I will try to talk louder.

296

00:23:40.590 --> 00:23:41.460

Larry Marcum: Okay, thank you. So

297

00:23:42.420 --> 00:24:01.920

Kelly Sweeney: You did chip out a little there. I'm Jackie. I don't know if it would be possible for you to go through all of our questions and then a number of people I had asked people to text me questions, but they've been putting them on the chat box. So maybe you could go through there to

298

00:24:05.910 --> 00:24:18.600

Kelly Sweeney: Helpful. If you don't mind and and the, I think I know the answer to the first one, but I'd like to hear it from you because I think a lot of us up here.

299

00:24:19.080 --> 00:24:33.330

Kelly Sweeney: Even if we're saying, well, we're not going to sell. We don't have to worry about these new septic regulations and then when we die, and our property passes to a beneficiary if they're not

300

00:24:34.830 --> 00:24:52.590

Kelly Sweeney: One of the exceptions like the spouse expect exception. Are they going to have to go through this transfer title septic testing before that property can be transferred out of probate from the descendants of state to the beneficiary.

301

00:24:54.720 --> 00:25:03.930

Jackie Littlepage - Lake County PH/EH: So we have a list of exemptions that are the current allowed exemption and should be in this document somewhere.

302

00:25:05.130 --> 00:25:07.170

Kelly Sweeney: Is and this is not covered.

303

00:25:07.650 --> 00:25:15.720

Jackie Littlepage - Lake County PH/EH: Okay, so then if it is not covered thing yes that inspection would still be required so that we can

304

00:25:16.740 --> 00:25:18.030

Jackie Littlepage - Lake County PH/EH: Allow the new

305

00:25:19.080 --> 00:25:26.130

Jackie Littlepage - Lake County PH/EH: Beneficiary to better understand that system and what they're inheriting and what it's going to be moving forward.

306

00:25:27.510 --> 00:25:41.460

Kelly Sweeney: If it's your spouse, there's an exception for spouses. But for someone who's on an owner of the property, but not if, if there's not an exception, like if you would transfer it to your brother or something like that.

307

00:25:42.870 --> 00:25:53.190

Jackie Littlepage - Lake County PH/EH: Right, so we have had a couple of cases where the owners decided to add a partner onto the title and then

308

00:25:54.480 --> 00:25:56.940

Jackie Littlepage - Lake County PH/EH: A certain amount of time. I don't know the timeframe.

309

00:25:58.680 --> 00:26:16.740

Jackie Littlepage - Lake County PH/EH: They then dropped the other partner off and somehow. It was a loophole that they were able to avoid having to do a transfer of title inspection. But again, the inspections meant to help the new owner, the new beneficiary understand the state of that system.

310

00:26:18.450 --> 00:26:18.810

Jackie Littlepage - Lake County PH/EH: You know,

311

00:26:20.310 --> 00:26:33.150

Jackie Littlepage - Lake County PH/EH: Having a septic tank regularly pumped and inspected is very important for the maintenance of your septic system, the septic system is essentially the stomach of your house. And if you don't take care of it that summit can get upset and

312

00:26:35.880 --> 00:26:47.400

Jackie Littlepage - Lake County PH/EH: Essentially get very sick and fail, and then your houses at risk and you don't want to set a new beneficiary up for any kind of upsets, or

313

00:26:49.500 --> 00:26:54.540

Jackie Littlepage - Lake County PH/EH: untimely costs if they're not ready to take on any burden.

314

00:26:56.520 --> 00:27:01.260

Kelly Sweeney: Thank you that that's really helpful. And I know that was a question on a lot of people's mind.

315

00:27:02.490 --> 00:27:02.820

Okay.

316

00:27:03.870 --> 00:27:06.930

Jackie Littlepage - Lake County PH/EH: All right. Looks like the second question covered

317

00:27:08.880 --> 00:27:18.030

Jackie Littlepage - Lake County PH/EH: Installing cluster systems. So, there again, we would really need to have a lot of big conversations with engineers.

318

00:27:19.140 --> 00:27:22.020

Jackie Littlepage - Lake County PH/EH: with community members with the state.

319

00:27:23.520 --> 00:27:27.930

Jackie Littlepage - Lake County PH/EH: All trying to come to the best agreement on a plan for

320

00:27:29.190 --> 00:27:37.830

Jackie Littlepage - Lake County PH/EH: Those properties are those homes that would be involved in a cluster system and yes there's likely a problem.

321

00:27:39.450 --> 00:27:42.450

Jackie Littlepage - Lake County PH/EH: And ability for tanks to be used.

322

00:27:43.470 --> 00:27:50.010

Jackie Littlepage - Lake County PH/EH: In ways to allow a property to tie into a cluster system over time.

323

00:27:54.540 --> 00:28:00.060

Jackie Littlepage - Lake County PH/EH: So I a tank might possibly be able to be used to the above system until it's tied in. Yes.

324

00:28:02.190 --> 00:28:05.820

Jackie Littlepage - Lake County PH/EH: And I think we covered the \$20,000 escrow question.

325

00:28:10.950 --> 00:28:30.120

Jackie Littlepage - Lake County PH/EH: Can you direct us to creative stuff to quell solutions and other small communities. And so I've sent this one to the state of Colorado several times. And so far, the state has not sent me back any other communities that are experiencing.

326

00:28:32.370 --> 00:28:38.400

Jackie Littlepage - Lake County PH/EH: Severe issues at this time. Twin Lakes is kind of a

327

00:28:40.530 --> 00:28:55.950

Jackie Littlepage - Lake County PH/EH: unique situation and that we know it's there and we're very lucky that we just don't have a bunch of septic systems all failing at once and contaminating groundwater. So right now we're we're holding in a very good position for right now, but

328

00:28:58.020 --> 00:29:16.350

Jackie Littlepage - Lake County PH/EH: Everyone needs to pay to pay close attention to their septic systems have them properly maintained and we strongly Lake County Public Health Agency strongly recommend that you're testing your well water annually, so that you can help monitor your well water and know what you're drinking

329

00:29:21.780 --> 00:29:34.830

Kelly Sweeney: Jackie. A quick follow up on that monitoring. Can you send me a quick link that I could send out to all of our members on how to get your well water tested in in Colorado.

330

00:29:35.490 --> 00:29:41.880

Jackie Littlepage - Lake County PH/EH: Yes. So on our Lake County website and what

331

00:29:44.550 --> 00:29:47.880

Jackie Littlepage - Lake County PH/EH: So that is Lake counties co.com

332

00:29:48.900 --> 00:29:50.100

Jackie Littlepage - Lake County PH/EH: Slash help

333

00:29:53.610 --> 00:29:57.510

Jackie Littlepage - Lake County PH/EH: And I will email that or I'll put it in the chat box.

334

00:30:01.980 --> 00:30:03.630

Kelly Sweeney: Is it on here. Can you see

335

00:30:05.250 --> 00:30:06.210

Kelly Sweeney: Where to go

336

00:30:07.920 --> 00:30:12.600

Jackie Littlepage - Lake County PH/EH: So if you click on environmental health over in the top left there you go. Yes.

337

00:30:13.920 --> 00:30:17.490

Jackie Littlepage - Lake County PH/EH: And then wells and drinking water on the left. Yes.

338

00:30:20.460 --> 00:30:24.240

Jackie Littlepage - Lake County PH/EH: Perfect. So then on there. There is homeowners.

339

00:30:26.340 --> 00:30:26.790

Kelly Sweeney: Right.

340

00:30:27.480 --> 00:30:27.990

Correct.

341

00:30:29.010 --> 00:30:43.530

Jackie Littlepage - Lake County PH/EH: And we do keep some of those test kits on hand in the office right now. I'm not working in the office. I'm working from home, but if anyone was to email me or give me a call on myself. My work cell phone.

342

00:30:45.300 --> 00:30:50.280

Jackie Littlepage - Lake County PH/EH: We can order those well water test kits and have them available for pickup.

343

00:30:51.660 --> 00:30:55.500

Jackie Littlepage - Lake County PH/EH: And we can set up a time for it to be picked up at the office.

344

00:30:57.750 --> 00:31:10.230

Jackie Littlepage - Lake County PH/EH: States also mailing those test kits directly out to folks. So if you go to the PDP he website here. You can order a well water test kit directly haven't shipped directly to your topic.

345

00:31:17.580 --> 00:31:21.090

Jackie Littlepage - Lake County PH/EH: Another great resource that I had emailed

346

00:31:22.290 --> 00:31:24.120

Were a

347

00:31:27.270 --> 00:31:34.800

Jackie Littlepage - Lake County PH/EH: Link to maintaining your well and it's well owner.org

348

00:31:35.880 --> 00:31:40.470

Jackie Littlepage - Lake County PH/EH: And water well maintenance. I'm going to add that link now in the chat box.

349

00:31:43.560 --> 00:31:45.030

Jackie Littlepage - Lake County PH/EH: And I'm sorry I see it.

350

00:31:48.330 --> 00:31:53.940

Kelly Sweeney: I'm pointing to that link on the email that people got today that's in there. Yes.

351

00:31:54.000 --> 00:32:06.690

Jackie Littlepage - Lake County PH/EH: So that well owner.org well maintenance. They have a lot of great videos and regular webinars for homeowners on how to maintain your wells and how to monitor your drinking water.

352

00:32:07.470 --> 00:32:22.650

Jackie Littlepage - Lake County PH/EH: That has been a great resource. So I strongly recommend that if you are on well water. Check out that website and sign up for their email reminders of when to test your well and when their webinars are active.

353

00:32:28.080 --> 00:32:34.110

Kelly Sweeney: Want to go back to the questions we're up to. Under the current regulations up to this question.

354

00:32:39.450 --> 00:32:49.980

Jackie Littlepage - Lake County PH/EH: Sorry, I'm trying to sit there go under the current rules, regulations, realistically, how big does a lot need to be to develop for single family.

355

00:32:52.500 --> 00:33:05.580

Jackie Littlepage - Lake County PH/EH: That's a hard question to answer because here in Colorado. We know that every property is going to have its own unique geology and topography set back issues.

356

00:33:06.510 --> 00:33:19.350

Jackie Littlepage - Lake County PH/EH: So really every property has to be engineered and homeowners that look to build should have a septic system engineer reviewing the site.

357

00:33:19.860 --> 00:33:26.190

Jackie Littlepage - Lake County PH/EH: Beyond just a general contractor or a design engineer for a home.

358

00:33:26.520 --> 00:33:35.310

Jackie Littlepage - Lake County PH/EH: You really need to have a septic engineer out there first, and they can help point you in the right direction as to where the well needs to be and where the septic system needs to be

359

00:33:35.790 --> 00:33:48.660

Jackie Littlepage - Lake County PH/EH: And then they can tell you where the driveway could be and where the House can go so the septic system location is really one of the most important parts of building

360

00:33:49.170 --> 00:33:56.670

Jackie Littlepage - Lake County PH/EH: Is, you've got to have that septic system built in an area that can handle the size of home, you want to build we've had

361

00:33:57.300 --> 00:34:06.930

Jackie Littlepage - Lake County PH/EH: Properties submit plans for a three bedroom home. That's a branch style layout and they quickly find that their property.

362

00:34:07.440 --> 00:34:18.900

Jackie Littlepage - Lake County PH/EH: That they thought was a one and a half acre lot was going to be large enough for a three bedroom home, but due to poverty or geological barriers like high bedrock.

363

00:34:19.530 --> 00:34:27.270

Jackie Littlepage - Lake County PH/EH: And they had to change their floor plan, which then change the price of building their home.

364

00:34:28.110 --> 00:34:35.550

Jackie Littlepage - Lake County PH/EH: So the septic system is going to be the same size, no matter what for that three bedroom home because it's regulated by the state to how

365

00:34:36.300 --> 00:34:42.660

Jackie Littlepage - Lake County PH/EH: The septic system can be size, the engineer was able to find the ideal location on the lot.

366

00:34:43.350 --> 00:34:57.600

Jackie Littlepage - Lake County PH/EH: And unfortunately, that kind of took space out of that ranch style home so they ended up having to then design their house up and make it a two story home, which wasn't ideal for their family, but they were able to make those changes.

367

00:34:58.680 --> 00:34:59.100

Jackie Littlepage - Lake County PH/EH: And

368

00:35:00.570 --> 00:35:12.990

Jackie Littlepage - Lake County PH/EH: fit it into a one and a half acre property. So even there. When we say we strongly recommend that if you have a well antiseptic, you need at least one acre

369

00:35:14.430 --> 00:35:37.500

Jackie Littlepage - Lake County PH/EH: And we have seen larger parcels one and a half, two acres not be able to accommodate a four or five bedroom home. What's desired just because they are on us like current a large flow or maybe again high bedrock or high ground water or maybe they have a drainage a natural

370

00:35:39.150 --> 00:35:52.560

Jackie Littlepage - Lake County PH/EH: Geologic drainage that has bring runoff issues that would run across a septic system so that would eliminate a certain portion of a property from being able to build a septic system on it.

371

00:35:53.970 --> 00:35:59.040

Jackie Littlepage - Lake County PH/EH: So again, it's very hard to say. And every lot needs to be looked at by exception.

372

00:36:03.870 --> 00:36:11.550

Kelly Sweeney: The next question kind of plays off of that, but maybe you could give some guidance, because there are some smaller lots up here.

373

00:36:13.470 --> 00:36:14.850

Kelly Sweeney: No hope or

374

00:36:15.900 --> 00:36:28.500

Jackie Littlepage - Lake County PH/EH: So if there's an existing home on it and what we're strongly recommending as if there's an empty lot surrounding your property that you can purchase, it would be

375

00:36:29.070 --> 00:36:38.550

Jackie Littlepage - Lake County PH/EH: Who've you to look into purchasing that and doing what consolidation so that you have a larger parcel so that you have more space to

376

00:36:40.140 --> 00:36:42.990

Jackie Littlepage - Lake County PH/EH: Expand your septic system on to in the future if ever.

377

00:36:44.280 --> 00:36:56.520

Jackie Littlepage - Lake County PH/EH: If you do not have a vacant lot next to you, adjacent to you that you can connect you then the state regulations do make for allowances.

378

00:36:57.510 --> 00:37:18.990

Jackie Littlepage - Lake County PH/EH: For property owners have an existing home to replace the existing system with a new system over the back. Same footprint that the existing system gone. One of the problems with that is some of many of the septic systems that are currently in the ground or old people.

379

00:37:20.340 --> 00:37:22.770

Jackie Littlepage - Lake County PH/EH: Which were often built to be

380

00:37:23.850 --> 00:37:32.070

Jackie Littlepage - Lake County PH/EH: Four feet or six feet wide by four feet or six feet long, but then 10 to 12 feet deep.

381

00:37:33.180 --> 00:37:36.930

Jackie Littlepage - Lake County PH/EH: And they're filled with rock or other media.

382

00:37:39.900 --> 00:37:58.440

Jackie Littlepage - Lake County PH/EH: And then just having the footage of the sewage from the tank directed into this pit to just drain directly into the ground. And those are known to have high risk for contaminate groundwater so replacement of seed which is high on our priority list and

383

00:38:00.660 --> 00:38:08.100

Jackie Littlepage - Lake County PH/EH: We currently are struggling with the county, not having a higher level treatment system allowance.

384

00:38:09.180 --> 00:38:09.570

Jackie Littlepage - Lake County PH/EH: Which

385

00:38:11.340 --> 00:38:21.630

Jackie Littlepage - Lake County PH/EH: At the state level, the state requires counties before they can allow a higher level system to be installed on our property, the county has to have

386

00:38:22.290 --> 00:38:33.990

Jackie Littlepage - Lake County PH/EH: A oversight and maintenance program and permitting program that would track that system every single year and have an annual inspection to make sure that the

387

00:38:34.470 --> 00:38:49.200

Jackie Littlepage - Lake County PH/EH: Components of a high level treatment system are being inspected handling way county government we currently do not have that program and they have not been able to adopt that into our

388

00:38:50.700 --> 00:38:55.170

Jackie Littlepage - Lake County PH/EH: County use because of lack of funding practice that

389

00:38:57.660 --> 00:39:09.540

Jackie Littlepage - Lake County PH/EH: Mix that said there's a need fair and tonight it and Lake County has been talking about it and hopefully it's something that we can get implemented in the future.

390

00:39:10.530 --> 00:39:24.270

Jackie Littlepage - Lake County PH/EH: Because then that means that we will have components and the design criteria, the engineers can get creative and have more solutions for current homeowners small bought me a

391

00:39:25.800 --> 00:39:29.850

Jackie Littlepage - Lake County PH/EH: septic system that will essentially fail at some point.

392

00:39:31.440 --> 00:39:35.700

Larry Marcum: Hey, Jackie was a lot better for a while and then it started to get all crackly again.

393

00:39:36.750 --> 00:39:44.670

Jackie Littlepage - Lake County PH/EH: Okay and I'm sorry that could just be the internet and we'll try to get through it and

394

00:39:45.720 --> 00:39:56.940

Jackie Littlepage - Lake County PH/EH: If you have questions, you can certainly email them to me and I will try to respond. I can try to respond to, like, a group email or send them to Kelly and she can be no question about

395

00:39:59.250 --> 00:40:14.610

Kelly Sweeney: It would be great if you could send any and all questions through me so that I can make sure they get out to everyone, because there may be a brilliant question out there that the rest of us couldn't think of that, the answer will be really helpful to know

396

00:40:15.270 --> 00:40:20.190

Kelly Sweeney: Sure, thanks. Um, so I think you're up to.

397

00:40:21.840 --> 00:40:27.840

Kelly Sweeney: Suggestions for septic well issues in Twin Lakes to the extent you haven't answered village.

398

00:40:29.460 --> 00:40:37.830

Jackie Littlepage - Lake County PH/EH: I don't have any other suggestions, other than we are working with homeowners on a case by case scenario. So if you've got a known issue, you know, please.

399

00:40:38.790 --> 00:40:45.960

Jackie Littlepage - Lake County PH/EH: We would much rather you contact us proactively and work with us. And rather than

400

00:40:46.410 --> 00:40:56.520

Jackie Littlepage - Lake County PH/EH: Finding it as a failed system and then having to go back and do enforcement on a property. So we say, Please don't hide an issue, please come forward and

401

00:40:57.030 --> 00:41:07.740

Jackie Littlepage - Lake County PH/EH: Let us help you try to work through it and we're trying to get very creative with engineers and remedy these systems and protect your groundwater.

402

00:41:10.830 --> 00:41:30.360

Jackie Littlepage - Lake County PH/EH: Let's see, has Lake County contemplated or explored are encouraged the expansion of Parkdale water to southern portion of Lake County, so over the seven years that I have worked here. I know that the questions come up a couple of times, but I can't speak for Parkfield water and

403

00:41:33.540 --> 00:41:47.280

Jackie Littlepage - Lake County PH/EH: From my past conversations that sound like it's extremely expensive for any kind of development to go in. There's a lot of infrastructure planning engineering and it hasn't been feasible.

404

00:41:50.310 --> 00:42:09.450

Jackie Littlepage - Lake County PH/EH: So next question in order to protect Twin Lakes potable water wells and underground occupiers. The county or state have the authority to physically survey on site and through county records. Each existing private septic tank leach field or other sorts of contamination.

405

00:42:10.920 --> 00:42:16.230

Jackie Littlepage - Lake County PH/EH: So this is a project that I have wanted to try to find a intern.

406

00:42:17.580 --> 00:42:38.040

Jackie Littlepage - Lake County PH/EH: To come and work for the county and try to do that kind of survey work and document systems. But unfortunately, we've not yet had the time or capacity to delve into that project and get it going, but hopefully in the future, it is on my radar and I would love to have that happen.

407

00:42:40.020 --> 00:42:50.760

Jackie Littlepage - Lake County PH/EH: There are some grants out there this year that I am closely looking at through EPA and if I can get a grant or if I can find an intern who's willing to

408

00:42:51.840 --> 00:42:52.860

Work for free.

409

00:42:54.540 --> 00:42:56.790

Jackie Littlepage - Lake County PH/EH: We will certainly look into that for them.

410

00:42:59.760 --> 00:43:02.490

Jackie Littlepage - Lake County PH/EH: We can move to the questions in the chat. Now,

411

00:43:12.900 --> 00:43:21.960

Jackie Littlepage - Lake County PH/EH: Right. We've got Jay Adams. What can you do if the property is too small to meet you stepped in regulation.

412

00:43:24.000 --> 00:43:36.450

Jackie Littlepage - Lake County PH/EH: Why can't we use technology for many systems. So again, that's that higher level treatments that some components that they have a tendency to break and they would be meeting.

413

00:43:37.590 --> 00:43:49.620

Jackie Littlepage - Lake County PH/EH: Inspections annually and the county would then have to do use permits annually and have you sending inspection reports in and we just don't currently have the capacity at the county level to run

414

00:43:50.100 --> 00:44:02.400

Jackie Littlepage - Lake County PH/EH: That kind of an oversight and maintenance program and until we do have the ability to create that program, the state prohibit Lake County from allowing those kinds of components or systems to be installed.

415

00:44:08.910 --> 00:44:15.150

Jackie Littlepage - Lake County PH/EH: And how much does the county need to put in place a regulation or a new department is

416

00:44:17.010 --> 00:44:27.210

Jackie Littlepage - Lake County PH/EH: That an ongoing question between Lake County Public Health Agency and Lake County governments. We've definitely been looking at different strategies for

417

00:44:28.260 --> 00:44:31.170

Jackie Littlepage - Lake County PH/EH: Sharing workloads or creating

418

00:44:32.610 --> 00:44:44.460

Jackie Littlepage - Lake County PH/EH: New roles. But at this point, and kind of not quite on the horizon. We've got coven 19 going on and on new issues still a lot of these septic system and

419

00:44:45.660 --> 00:44:57.600

Jackie Littlepage - Lake County PH/EH: Issues are kind of being put on the backburner but I won't let them go away, we will revisit them as soon as we can spend more time and dedicate the time and energy to having this conversation again.

420

00:45:04.800 --> 00:45:05.310

Jackie Littlepage - Lake County PH/EH: So,

421

00:45:06.870 --> 00:45:10.260

Jackie Littlepage - Lake County PH/EH: Young to ask our shared systems allowed

422

00:45:12.720 --> 00:45:20.370

Jackie Littlepage - Lake County PH/EH: At this point in time, Colorado regulations do not allow for more than one house to be connected to a septic system.

423

00:45:21.660 --> 00:45:41.190

Jackie Littlepage - Lake County PH/EH: Essentially shared systems would be what we talked about a little bit earlier clustered system, the state towns open to the idea of flustered systems for the Twin Lakes village because of the unique need in that area. So it's not off the table. However,

424

00:45:42.660 --> 00:45:55.950

Jackie Littlepage - Lake County PH/EH: Clustered systems or shared systems run into some legality issues and the homeowners that would be sharing a system would have to work with a legal team and come up with

425

00:45:56.370 --> 00:46:11.760

Jackie Littlepage - Lake County PH/EH: Very good agreement to help protect each of the homeowners and help them understand the risks that they are essentially sharing some household household and if that septic system fails.

426

00:46:12.900 --> 00:46:21.540

Jackie Littlepage - Lake County PH/EH: Who's going to pay for it, and how is that going to be split amongst the homes or the properties that are sharing a system so

427

00:46:23.370 --> 00:46:42.000

Jackie Littlepage - Lake County PH/EH: In the past, shared systems in other areas of the state have been prohibited because of lawsuits and issues where a septic system failed and one homeowner decides to disconnect their neighbors and create havoc.

428

00:46:43.290 --> 00:46:46.770

Jackie Littlepage - Lake County PH/EH: For the state does not allow them and therefore they can does not allow them

429

00:46:48.840 --> 00:46:54.240

Jackie Littlepage - Lake County PH/EH: But if not off the table for Twin Lakes. If there was a good plan and a legal

430

00:46:55.920 --> 00:46:57.750

Jackie Littlepage - Lake County PH/EH: Agreement involved.

431

00:47:00.120 --> 00:47:14.160

Jackie Littlepage - Lake County PH/EH: Larry asked, is there an option to have a requirement on approval for higher level systems which mandate system owners to fund those annual inspection. Well, the homeowners would be paying for their own inspections and

432

00:47:16.680 --> 00:47:23.640

Jackie Littlepage - Lake County PH/EH: That would be an animal use permits, so there would be a county fee from the homeowner to pay for that annual permit.

433

00:47:25.560 --> 00:47:32.610

Jackie Littlepage - Lake County PH/EH: But those use permits in other parts of the state. Those use permits, we usually only about \$30 to \$40

434

00:47:33.690 --> 00:47:41.160

Jackie Littlepage - Lake County PH/EH: Annually, and a one year \$30 fee is not going to fund an employee and benefits.

435

00:47:44.190 --> 00:47:48.030

Jackie Littlepage - Lake County PH/EH: Running a full time program. So that's one of the constraints.

436

00:47:54.450 --> 00:47:58.050

Jackie Littlepage - Lake County PH/EH: I think that's all the questions, but I'm seeing here. Does anybody else have any questions.

437

00:48:00.990 --> 00:48:03.660

Jackie Littlepage - Lake County PH/EH: You can either put them in the chat or you can unmute yourself.

438

00:48:08.220 --> 00:48:10.620

JAdams: Hi Kelly, can you hear me, Jackie.

439

00:48:11.010 --> 00:48:13.620

JAdams: Yeah. Hi, this is Walter, I have

440

00:48:13.620 --> 00:48:16.950

JAdams: A question about our existing

441

00:48:17.580 --> 00:48:19.380

JAdams: Septic and leach system.

442

00:48:20.310 --> 00:48:21.000

JAdams: If we are

443

00:48:21.030 --> 00:48:32.010

JAdams: Able we we meet the new requirements as far as I can tell, to put in a larger tank so to increase our capacity.

444

00:48:33.630 --> 00:48:36.300

JAdams: Is that that's the question I have.

445

00:48:38.040 --> 00:48:50.700

Jackie Littlepage - Lake County PH/EH: So tanks are only one piece of the puzzle and a septic system for tank holds two, which for a certain amount of time, the state regulations require a 24 hour

446

00:48:53.940 --> 00:48:58.470

Jackie Littlepage - Lake County PH/EH: 48 hours. Sorry. They require a 48 hour detention time

447

00:48:59.760 --> 00:49:20.550

Jackie Littlepage - Lake County PH/EH: On the sewage before it goes out to a leach field and holding it for a longer period of time is debated at the state whether that's a good idea, or if it then creating higher concentrations that go out to a field and and have septic failure issues.

448

00:49:22.980 --> 00:49:41.310

Jackie Littlepage - Lake County PH/EH: That kind of gets into the treatment area where I am not an engineer and I did not design the system, I simply regulate how they're installed and permitted and getting put in the ground. So we really need to have an engineer working with you on your case by case scenarios and

449

00:49:43.710 --> 00:49:44.880

JAdams: Understand. Thank you.

450

00:49:48.510 --> 00:49:51.060

17205561915: Hey, Jackie can you hear me. Yeah, yeah.

451

00:49:52.260 --> 00:50:00.030

17205561915: This is Andrew Williams. I'm a homeowner here on the border of the village of Twin Lakes. Um, I have some concerns here because

452

00:50:00.750 --> 00:50:07.350

17205561915: If you were to look up in 1978 with the love cat. Love Canal in upstate New York with the contaminations in the ground.

453

00:50:08.220 --> 00:50:16.830

17205561915: I'm looking at. We're about roughly correct me when I'm wrong here. If I am four times the wetlands in this county than any other part of state.

454

00:50:17.790 --> 00:50:23.310

17205561915: Is I'm sitting in my kitchen table listening to this meeting. I'm looking at the wetlands across the street on Highway 82

455

00:50:23.970 --> 00:50:32.610

17205561915: And I look at all the tributaries that dragon down from Bartlett Gulf and saturate the ground. Now we know we're on a landslide area.

456

00:50:33.480 --> 00:50:43.440

17205561915: I haven't heard anything. And I'm not saying there isn't. This is why I would like to know where I can get more dialed in with the county web pages, or if you have a blog.

457

00:50:44.340 --> 00:50:55.140

17205561915: About the process of determining if the soil is contaminated what level is a contaminated at and how is it going to be properly removed.

458

00:50:56.250 --> 00:51:06.990

17205561915: We're talking about stopping contamination. But what about testing the severity of the contamination in the ground and what is possibly doing to the wetlands.

459

00:51:07.650 --> 00:51:17.640

17205561915: I was in your office not probably about a month ago when I got that advanced water kit for the well, and I'd like to get a water kit for the stream next to my house.

460

00:51:18.120 --> 00:51:25.680

17205561915: And for the beaver pond. This behind my house and test this also in the winter to see what the water is doing when there is no spring.

461

00:51:26.880 --> 00:51:35.550

17205561915: Snow run off to give you an inaccurate reading my concern is, we got a lot of people that are talking and concerned and worried about their septic

462

00:51:36.240 --> 00:51:44.910

17205561915: What about getting a grant and coming up with a sewage treatment plant for the village. I mean, it costs a lot of money for individuals to put a septic in if they're already spending.

463

00:51:45.630 --> 00:51:54.900

17205561915: You know, eight to 10 to \$12,000 apiece. What if you have a number of people that are in that process that could put towards a sewage treatment plan.

464

00:51:55.410 --> 00:52:04.980

17205561915: To not only protect the dirt and soil that should be, you know, what are the guidelines is like Tony doing to test the soil as well to know if it's classified as hazardous.

465

00:52:06.120 --> 00:52:08.400

17205561915: Um, this is the future for our children.

466

00:52:11.220 --> 00:52:12.930

Jackie Littlepage - Lake County PH/EH: Yes, I hear you.

467

00:52:13.020 --> 00:52:14.670

17205561915: I'm hearing nothing about soil testing.

468

00:52:16.620 --> 00:52:16.980

17205561915: Right.

469

00:52:17.010 --> 00:52:21.270

Jackie Littlepage - Lake County PH/EH: I hear you. And at this point in time, like County is not doing any kind of

470

00:52:21.270 --> 00:52:23.700

Jackie Littlepage - Lake County PH/EH: soil testing or

471

00:52:23.730 --> 00:52:24.360

Widespread

472

00:52:26.070 --> 00:52:26.820

Jackie Littlepage - Lake County PH/EH: I think

473

00:52:26.880 --> 00:52:28.260

Jackie Littlepage - Lake County PH/EH: That's a project.

474

00:52:28.470 --> 00:52:29.190

17205561915: Beyond

475

00:52:29.220 --> 00:52:32.100

Jackie Littlepage - Lake County PH/EH: Just Lake County probably also need

476

00:52:32.190 --> 00:52:32.640

17205561915: To be

477

00:52:34.350 --> 00:52:36.810

Jackie Littlepage - Lake County PH/EH: The state involved in that kind of research.

478

00:52:36.960 --> 00:52:37.830

17205561915: Or possibly

479

00:52:37.980 --> 00:52:41.700

Jackie Littlepage - Lake County PH/EH: GA I don't know that's beyond me and

480

00:52:42.660 --> 00:52:45.120

Jackie Littlepage - Lake County PH/EH: As far as a water treatment.

481

00:52:47.010 --> 00:52:47.700

Jackie Littlepage - Lake County PH/EH: We do know.

482

00:52:47.850 --> 00:52:48.750

Jackie Littlepage - Lake County PH/EH: That area.

483

00:52:49.770 --> 00:52:50.610

Jackie Littlepage - Lake County PH/EH: Where our septic

484

00:52:51.930 --> 00:52:54.750

Jackie Littlepage - Lake County PH/EH: Overlapping on top of others system.

485

00:52:56.580 --> 00:52:57.390

17205561915: Groundwater

486

00:52:58.410 --> 00:52:59.700

Jackie Littlepage - Lake County PH/EH: Village is

487

00:53:01.290 --> 00:53:05.550

Jackie Littlepage - Lake County PH/EH: Subjected to that, yes, there's a higher

488

00:53:06.660 --> 00:53:07.110

17205561915: Risk

489

00:53:07.350 --> 00:53:10.950

17205561915: For the groundwater coming up with your low and that's

490

00:53:10.980 --> 00:53:11.910

Jackie Littlepage - Lake County PH/EH: Again why we

491

00:53:11.940 --> 00:53:13.350

17205561915: Strongly recommend that

492

00:53:13.350 --> 00:53:14.070

17205561915: Homeowners

493

00:53:14.520 --> 00:53:15.300

17205561915: Are annually.

494

00:53:15.330 --> 00:53:16.350

17205561915: testing your drinking

495

00:53:16.350 --> 00:53:19.140

Jackie Littlepage - Lake County PH/EH: Water well there are other options.

496

00:53:19.200 --> 00:53:26.280

Jackie Littlepage - Lake County PH/EH: that homeowners can take to put filter meters on their home drinking water to help protect the drinking

497

00:53:26.280 --> 00:53:29.280

Jackie Littlepage - Lake County PH/EH: Water now know that does not fit.

498

00:53:29.850 --> 00:53:37.470

Jackie Littlepage - Lake County PH/EH: The ground contamination part where a septic treatment facility would help.

499

00:53:38.760 --> 00:53:39.060

Jackie Littlepage - Lake County PH/EH: But

500

00:53:39.660 --> 00:53:40.890

Jackie Littlepage - Lake County PH/EH: At this point in time.

501

00:53:41.850 --> 00:53:42.930

Jackie Littlepage - Lake County PH/EH: Unless you're getting

502

00:53:42.960 --> 00:53:48.150

Jackie Littlepage - Lake County PH/EH: Widespread community agreement and funding to implement

503

00:53:49.140 --> 00:53:49.410

Water

504

00:53:52.590 --> 00:53:54.240

17205561915: It's just conversation.

505

00:53:55.170 --> 00:53:57.540

Jackie Littlepage - Lake County PH/EH: So we can continue to have those

506

00:53:57.540 --> 00:53:58.500

Conversations

507

00:53:59.700 --> 00:54:00.930

Jackie Littlepage - Lake County PH/EH: But until we get that

508

00:54:02.430 --> 00:54:03.210

Jackie Littlepage - Lake County PH/EH: Agreement that

509

00:54:04.560 --> 00:54:05.460

Jackie Littlepage - Lake County PH/EH: Wants to go

510

00:54:07.170 --> 00:54:08.130

Jackie Littlepage - Lake County PH/EH: To be able to

511

00:54:08.250 --> 00:54:08.370

17205561915: A

512

00:54:08.520 --> 00:54:09.510

Jackie Littlepage - Lake County PH/EH: Team that grant

513

00:54:13.500 --> 00:54:15.630

Jackie Littlepage - Lake County PH/EH: It's just not happening.

514

00:54:18.270 --> 00:54:25.200

17205561915: I under, I understand. And like I said, like I want to get my well tested with the advanced kit which I have on my table as I speak to you.

515

00:54:26.070 --> 00:54:33.180

17205561915: And I want to give you that data, not just call you up and say yeah past I feel it's the responsible thing.

516

00:54:33.870 --> 00:54:41.910

17205561915: For all of us to give data to you so you know what the water is doing so you can build a spreadsheet and you can have a grid to see whether

517

00:54:42.600 --> 00:54:50.520

17205561915: It can show layers, where it's getting concerning and then you add the soil samples into that as well and you know where Ground Zero starts

518

00:54:51.390 --> 00:55:01.500

17205561915: I just, I did a record on stuff like this was in college with the Love Canal in upstate New York. The Love Canal area that's a huge if any of you guys don't know that look it up. It's a huge thing.

519

00:55:02.070 --> 00:55:08.970

17205561915: And that's what I'm hearing right now makes me think about that a lot. And I think about the soil and I think about our wetlands.

520

00:55:09.390 --> 00:55:19.980

17205561915: And I think about the contributors and water of standing water existing water runoff Rain, rain water and wetlands around the lake. We're in a very

521

00:55:20.580 --> 00:55:34.860

17205561915: Beautiful area that is unique. With so much wetlands and to me it's not just stopping the sewage from continuing the ground, but what's the level of contamination, we're at right now. You know, I have a modern house. I want to get her back that

522

00:55:35.730 --> 00:55:40.020

Kelly Sweeney: You are raising Awesome points and making really

523

00:55:40.050 --> 00:55:41.730

Kelly Sweeney: Incredible suggestions that

524

00:55:41.760 --> 00:55:45.960

Kelly Sweeney: Each one of us should take to heart and share that information with Jackie.

525

00:55:46.440 --> 00:55:48.300

Kelly Sweeney: But before we go too far.

526

00:55:48.540 --> 00:55:52.380

Kelly Sweeney: Too long into this. Let's see if we got some other

527

00:55:53.220 --> 00:55:54.540

Kelly Sweeney: Questions which is

528

00:55:54.690 --> 00:55:55.500

Kelly Sweeney: Coming up

529

00:55:55.650 --> 00:56:03.750

17205561915: No problem. I'll email it to problem. No, but those were great ideas. No, no, I mean that I mean that from my heart.

530

00:56:04.920 --> 00:56:06.930

17205561915: My heart. Yeah, but

531

00:56:08.460 --> 00:56:11.460

17205561915: would enrich oh if I could.

532

00:56:11.490 --> 00:56:13.650

Kelly Sweeney: And Andrew you to share

533

00:56:13.980 --> 00:56:15.750

Kelly Sweeney: Your thoughts and ideas.

534

00:56:15.780 --> 00:56:26.520

Kelly Sweeney: With Kurt sweigert and some others that really are trying to work together to come up with a Community system and providing a community response.

535

00:56:26.850 --> 00:56:27.510

17205561915: Is

536

00:56:27.600 --> 00:56:29.550

Kelly Sweeney: To Jackie, in particular.

537

00:56:29.850 --> 00:56:31.560

Kelly Sweeney: Areas right around the

538

00:56:31.590 --> 00:56:34.500

Kelly Sweeney: Twin Lakes village. So I know that you're in.

539

00:56:34.890 --> 00:56:36.870

17205561915: would be greatly appreciated. But

540

00:56:36.870 --> 00:56:39.240

Kelly Sweeney: Let's go ahead and you

541

00:56:40.530 --> 00:56:43.230

17205561915: Know, I understand. Kelly, there's other people. I'm sorry. Go ahead.

542

00:56:45.270 --> 00:56:47.970

Jackie Littlepage - Lake County PH/EH: Another important question here in the chat.

543

00:56:47.970 --> 00:56:48.420

17205561915: Box.

544

00:56:48.480 --> 00:56:48.840

Jackie Littlepage - Lake County PH/EH: That I

545

00:56:48.870 --> 00:56:49.770

Jackie Littlepage - Lake County PH/EH: Really need to get

546

00:56:50.400 --> 00:56:51.420

17205561915: Some very important

547

00:56:51.720 --> 00:56:52.140

Jackie Littlepage - Lake County PH/EH: It says

548

00:56:52.290 --> 00:56:52.680

Jackie Littlepage - Lake County PH/EH: Is it

549

00:56:53.250 --> 00:56:56.610

Jackie Littlepage - Lake County PH/EH: To run a washing machine directly on the ground and

550

00:56:56.790 --> 00:56:58.710

Jackie Littlepage - Lake County PH/EH: Into a step. Yes.

551

00:56:58.830 --> 00:57:10.650

Jackie Littlepage - Lake County PH/EH: That is correct. It is illegal. That's considered grey water use, which the state has a regulation which would allow for gray water systems.

552

00:57:11.280 --> 00:57:19.530

Jackie Littlepage - Lake County PH/EH: But each county has to adopt regulations surrounding gray water usage and permitting and have a program

553

00:57:20.250 --> 00:57:38.430

Jackie Littlepage - Lake County PH/EH: Here again, Lake County does not have a regulation does not have a gray water program and therefore grey water use is prohibited, and that dumping of the washing machine fluids needs to go into a septic system dumping it on the ground is illegal.

554

00:57:42.600 --> 00:57:47.670

Jackie Littlepage - Lake County PH/EH: Let's see. There was another comment about wetlands being overseen by the US Army Corps of Engineers.

555

00:57:48.090 --> 00:58:04.710

Jackie Littlepage - Lake County PH/EH: And that's a great point. Thank you for pointing that out. And we will certainly keep that in mind as we go forward in the future with watching and monitoring for groundwater contamination, which is on my radar. Unfortunately, right now, we've got a lot of

556

00:58:05.910 --> 00:58:19.860

Jackie Littlepage - Lake County PH/EH: Response work that we're doing. And again, septic systems have been kind of put on the wayside. So I, I also see in the chat box. A question about a plan review that has been submitted. And what's the status of it.

557

00:58:21.120 --> 00:58:39.450

Jackie Littlepage - Lake County PH/EH: To let you know. Yes, I have a backlog of septic permits and applications that I am working through and I am trying to get to them as quickly as I possibly can, however, Calvin 19 response has been taking precedence for like county public health agency employees to please bear with us.

558

00:58:40.530 --> 00:58:42.780

Jackie Littlepage - Lake County PH/EH: We'll try to get to you as quickly as possible.

559

00:58:46.560 --> 00:58:51.390

Kelly Sweeney: We genuinely appreciate all that you've been doing and all the updates that you've been providing

560

00:58:51.990 --> 00:59:05.970

Kelly Sweeney: With respect to covert as well. At this point, I saw that Commissioner Marcella was on and Jackie. We can't thank you enough for all your time on this issue, but we want you to stay on because of things to add on.

561

00:59:06.840 --> 00:59:26.640

Kelly Sweeney: As Commissioner Marcella addresses us on some of the issues with the county and commission Marcel, thank you so much for listening and listening through the entire presentation. We didn't mean to keep you THIS long but wanted to go ahead and start on the flow. So, you, you have the phone.

562

00:59:27.600 --> 00:59:32.820

Commissioner Kayla Marcella: Oh, thanks for having me. Um, we are plugging away with the

563

00:59:35.550 --> 00:59:50.160

Commissioner Kayla Marcella: Pandemic efforts. And so we've kind of gone through the initial emergent phase of response to the pandemic and started are starting to now ease our way into

564

00:59:51.030 --> 01:00:01.380

Commissioner Kayla Marcella: Looking at recovery and what our road down recovery will be so we know we have a long road ahead of us, but we're we're continuing to work.

565

01:00:02.730 --> 01:00:09.030

Commissioner Kayla Marcella: down that road in collaboration with the city and our other special district partners.

566

01:00:10.380 --> 01:00:18.930

Commissioner Kayla Marcella: So I feel like we've been able to be really resourceful through this pandemic event. The EDC has been very helpful.

567

01:00:19.650 --> 01:00:32.880

Commissioner Kayla Marcella: With us getting information from and to the business community and the city of Leadville as well. So we've been we've been very resourceful and very collaborative in our approach to the pandemic and

568

01:00:34.560 --> 01:00:38.010

Commissioner Kayla Marcella: We're looking forward to starting to

569

01:00:39.660 --> 01:00:43.980

Commissioner Kayla Marcella: Move forward a little bit. We're still working. Sorry, just to say

570

01:00:52.650 --> 01:00:54.780

Commissioner Kayla Marcella: Sorry, the baby needs for here.

571

01:00:56.550 --> 01:01:12.000

Commissioner Kayla Marcella: Um, but, um, we're, we're working through getting into looking at our long term goals and and rerouting our budget goals going into the 2021 budget year so I'm just busy.

572

01:01:13.110 --> 01:01:28.380

Commissioner Kayla Marcella: Busy with that basically every day. The board does have standing work sessions on Tuesdays and Wednesdays at 1pm and then a special meeting posted every Thursday at 1pm so if there's any decisions that needs to be made around

573

01:01:30.240 --> 01:01:45.150

Commissioner Kayla Marcella: The pandemic event or something of that nature. We can do that. If not, we were we cancel those those special meetings but anybody is welcome to join those meetings are posted on our planner and

574

01:01:46.320 --> 01:01:49.980

Commissioner Kayla Marcella: If you don't get the planner. We'd be happy to send it to you, just let us know.

575

01:01:56.370 --> 01:01:59.370

Commissioner Kayla Marcella: Um, does anybody have any, any questions.

576

01:02:00.780 --> 01:02:01.530

Commissioner Kayla Marcella: Any questions.

577

01:02:02.850 --> 01:02:05.550

Kelly Sweeney: Can I, can I jump in, Kayla, this goes

578

01:02:05.550 --> 01:02:17.730

Kelly Sweeney: Both you and to Jackie and it may be more dechy you know friends or two legs does a lot of work with the Forest Service, including maintaining and cleaning up

579

01:02:18.240 --> 01:02:21.960

Kelly Sweeney: All the heritage Park interlock and running that visitor center.

580

01:02:22.590 --> 01:02:45.420

Kelly Sweeney: Do we need to have any plans that we have for our one day clean up and ultimately for our opening of the visitor center. Is that something that we need to do on the business approval review form to Jackie, or how do we go about that because that's federal land.

581

01:02:46.290 --> 01:02:48.870

Commissioner Kayla Marcella: I think I think Jackie could answer.

582

01:02:49.200 --> 01:02:55.560

Commissioner Kayla Marcella: The question about the visitor center and perhaps Paul might be able to chime in a little bit about the cleanup. I'm not sure if that

583

01:02:56.910 --> 01:03:05.640

Commissioner Kayla Marcella: falls under any kind of special event or anything like that. Jackie, do you want to start with the visitor center and then we'll let Paul talk about the cleanup perhaps

584

01:03:06.390 --> 01:03:22.050

Jackie Littlepage - Lake County PH/EH: Yes, sure, and Kelly. I'll make sure that you have the document. It's a business social distancing protocol document that needs to be filled out for any businesses that are wanting to open up or

585

01:03:23.430 --> 01:03:37.500

Jackie Littlepage - Lake County PH/EH: Relax, their restrictions from the stay at home to the safer at home phase of our recovery plan, though. Yes, your visitor center wouldn't need to

586

01:03:38.010 --> 01:03:50.370

Jackie Littlepage - Lake County PH/EH: submit a plan for how they're going to protect the folks entering the facility and maintain you know the current social distancing requirements which are currently still set at

587

01:03:51.270 --> 01:04:02.340

Jackie Littlepage - Lake County PH/EH: 10 or fewer people and everyone must maintain six feet distance apart and went out in public. Everyone should be wearing a cloth face covering of some sort.

588

01:04:04.800 --> 01:04:12.210

Larry Marcum: Well, I appreciate that for the county. I suspect that on federal land that the county really does not have jurisdiction.

589

01:04:15.960 --> 01:04:28.410

Jackie Littlepage - Lake County PH/EH: So far the governor's orders and the Federal Government have been working very closely. And to my knowledge, the forest rangers and BLM here in Colorado.

590

01:04:29.340 --> 01:04:40.470

Jackie Littlepage - Lake County PH/EH: Have been working in conjunction with the governor's orders. So the governors are standing, but we can certainly check into that and as

591

01:04:40.950 --> 01:04:56.940

Jackie Littlepage - Lake County PH/EH: This is an ever evolving situation and things are changing day to day. Please continue to follow the new website that we've emailed out to Kelly. That's where it new information will be put on a daily basis.

592

01:04:57.960 --> 01:05:00.540

Larry Marcum: Is a great idea to have a plan that's just curious.

593

01:05:02.730 --> 01:05:03.060

Kelly Sweeney: And

594

01:05:04.500 --> 01:05:18.480

Kelly Sweeney: And mentors to see, you know, I have been filling that out for the cleanup day and I think we can do it by working in two hours shifts. I think it's very manageable. But right now, there's the

595

01:05:19.200 --> 01:05:35.310

Kelly Sweeney: Forest Service is doesn't want us on their property. Tell the 31st of May, but I have a conference call with Jim fear really the rec director and we'll see how how that goes on Tuesday, and I'll keep everyone updated.

596

01:05:36.750 --> 01:05:44.070

clarkson: I this is Paul Clarkson, and I did have a conference with the Forest Service on Thursday.

597

01:05:45.210 --> 01:06:07.680

clarkson: They are allowing for their trails and their trail heads to be used, but all of their spaces in which the possibility of a congregation that might occur are meaning closed until the at least the end of May. That includes campgrounds that includes

598

01:06:10.530 --> 01:06:17.460

clarkson: Bathrooms boat ramps and I would suspect your visitor center at the same time.

599

01:06:18.840 --> 01:06:28.920

clarkson: But Kelly, if you're going to have this phone conference, you'll because Jim was part of that conference as well. So you'll just find out the same thing that

600

01:06:30.240 --> 01:06:43.680

clarkson: I know um and and that's the question that I see here when do. Do you think campgrounds will be opening so far. The intent is that they will remain closed until the end of the month.

601

01:06:45.840 --> 01:06:56.880

clarkson: This is as Jackie just mentioned, this is a developing situation and we don't know a lot of what our circumstances are going to be even at the end of next week.

602

01:06:58.770 --> 01:07:00.450

clarkson: And I can tell you that

603

01:07:02.250 --> 01:07:12.630

clarkson: short term rentals, for instance, and accommodations lodging are also intended to be to remain closed.

604

01:07:13.950 --> 01:07:25.200

clarkson: For the near future. And as I and and that might be in two weeks. It might be in another four weeks. There's a lot of issues that we just don't have the answers to.

605

01:07:26.430 --> 01:07:41.550

clarkson: And we don't want to over regulate and we certainly don't want to under regulate, we don't really want to be doing any regulation at all. But this is a unique situation that I know none of us have ever dealt with.

606

01:07:43.860 --> 01:08:01.740

Jackie Littlepage - Lake County PH/EH: Yeah. And right now, you're protecting the public and preventing the spread of is our highest priority and anything that we can do to try to slow that spread and prevent a second wave or another large spike in the statewide

607

01:08:06.990 --> 01:08:21.870

Jackie Littlepage - Lake County PH/EH: Response to those that fall ill to Kobe is our highest priority and, you know, right now I know there's a lot of concern because Lake County's numbers are still on the rise.

608

01:08:22.590 --> 01:08:33.360

Jackie Littlepage - Lake County PH/EH: What Monday we were at 10 confirmed positives and then yesterday, we're up to 16 confirm positives and likely our numbers will continue to rise.

609

01:08:33.960 --> 01:08:44.820

Jackie Littlepage - Lake County PH/EH: As we are doing contact tracing on the folks who are positive, you know, it's a spider web effect when you have one person positive that person's has contacts so

610

01:08:45.300 --> 01:08:55.170

Jackie Littlepage - Lake County PH/EH: Those who are contacted to them might turn up positive and then they might have positives connected. So we will likely continue to see some of our

611

01:08:56.010 --> 01:09:09.960

Jackie Littlepage - Lake County PH/EH: Confirmed positive cases increase and at the same time, we just need to know that code is out in our community and it is still spreading the more that we are out and about the more that we are

612

01:09:11.400 --> 01:09:23.280

Jackie Littlepage - Lake County PH/EH: exposing ourselves to others in the community, the likely we are to continue that spread. So as we move into this safer at home phase, you know, please continue to

613

01:09:24.030 --> 01:09:40.530

Jackie Littlepage - Lake County PH/EH: Follow social distancing, to the best of your abilities and help protect folks, especially the older and more susceptible population. They're the ones at highest risk and we need to all do our due diligence to try to protect them to the best of our abilities.

614

01:09:43.020 --> 01:09:54.690

Jackie Littlepage - Lake County PH/EH: Does anybody have any other questions that are around coven that I can try to answer or take back to my public health director Colleen, and make sure that we try to respond to them.

615

01:09:55.110 --> 01:09:58.620

owner: I have a question for both Commissioner and yourself.

616

01:10:00.420 --> 01:10:12.900

owner: If, if, for example, our property does not meet the requirements and the only available property to purchase is in the Moakler a state.

617

01:10:14.100 --> 01:10:25.950

owner: It is my understanding that the county commissioners have restricted any transfer of sale of any of them a clerk property. So how would one actually acquire more property.

618

01:10:28.020 --> 01:10:34.530

Jackie Littlepage - Lake County PH/EH: That I don't know need to probably talk offline and try to work through that one on a one on one.

619

01:10:35.430 --> 01:10:39.840

Commissioner Kayla Marcella: Yeah I don't at this point have any information on

620

01:10:40.980 --> 01:10:52.740

Commissioner Kayla Marcella: Implementing any kind of restriction on transfers of sales on that property. So I think we'd have to do some research. It could have been aboard prior to us but mine. I was taking any action.

621

01:10:55.530 --> 01:11:02.640

clarkson: Never having heard anything about them explore property, I can only conjecture that this might be a subdivision issue.

622

01:11:03.840 --> 01:11:05.730

clarkson: But I don't actually know.

623

01:11:10.800 --> 01:11:22.500

Commissioner Kayla Marcella: If you would be able to send an email to Jackie Paul and myself. I'll put our email addresses in the chat and then we can we can talk offline about that question and answer it for you.

624

01:11:29.940 --> 01:11:44.490

Kelly Sweeney: For those of you on the phone also send an email out with Kayla or Commissioner Marcel as Jackie's and Paul's emails on it. And again, just thank you the three of you so much for being so open to

625

01:11:45.720 --> 01:11:49.230

Kelly Sweeney: Communicating with us on these important issues in our county

626

01:11:52.020 --> 01:11:54.090

Jackie Littlepage - Lake County PH/EH: Oh, thank you for inviting us. Yeah.

627

01:11:54.120 --> 01:12:10.680

Commissioner Kayla Marcella: Thanks for having us on our email addresses are there, please feel free to reach out to me anytime, send me an email and I can get you to the right people to answer the right questions. If I'm not sure of the answers. So thanks for having us. We, we appreciate it.

628

01:12:13.590 --> 01:12:26.730

Kelly Sweeney: Does anyone have any last minute questions I would imagine that we should get used to zoom because our next member meeting is at the end of May, but

629

01:12:27.300 --> 01:12:35.910

Kelly Sweeney: Before things open up and even at that point, maybe folks would be more comfortable on the phone in any respect or we could all sit out on the

630

01:12:36.930 --> 01:12:39.300

Kelly Sweeney: Six feet apart on the schoolhouse groans

631

01:12:40.020 --> 01:12:41.250

joan: I have a question. Kelly.

632

01:12:41.370 --> 01:12:42.240

Kelly Sweeney: This is john okay

633

01:12:42.930 --> 01:12:59.430

joan: I came in late, because I was having technical difficulties and I just heard the tail end of the groundwater issues. Is there going to be anything written or minutes from this meeting, so I can find out what was talked about and we do have a septic system and live in pitch dark

634

01:13:00.330 --> 01:13:09.930

Kelly Sweeney: Awesome. We are we are recording this meeting, so I will be in out the link to so that you could hear the entire

635

01:13:11.340 --> 01:13:29.850

Kelly Sweeney: Discussion that was had and something that was shared with me via text was that pan arc is really encouraging people to have larger lots and what they're saying they would also like to have septic systems.

636

01:13:31.110 --> 01:13:44.460

Kelly Sweeney: No closer than 150 feet, instead of 100 feet of the me WHA productive wells me. Well, for those of you not in pan R stands for Mount Elbert Water Association, I believe.

637

01:13:45.060 --> 01:13:45.150

I

638

01:13:46.290 --> 01:14:05.760

Kelly Sweeney: Just wanted you to be aware of that and Jeff Johnson is on the me WA board. I think Bobby ram still and maybe someone from power could jump in and tell me who they might want to communicate with if they have questions about what he was asking people in pan are to do

639

01:14:10.230 --> 01:14:14.310

joan: I can get in touch with the representative I have their information. Thank you.

640

01:14:20.670 --> 01:14:23.640

iPad (3): Kelly, I'm here, they should get in touch with Jeff Johnson.

641

01:14:27.390 --> 01:14:28.020

joan: Thank you.

642

01:14:30.060 --> 01:14:32.730

janmorzel: Hi this is young. I have a quick question.

643

01:14:35.850 --> 01:14:36.840

janmorzel: Can anybody hear me.

644

01:14:37.590 --> 01:14:39.420

Kelly Sweeney: We can hear you Jaan, keep going.

645

01:14:39.780 --> 01:14:49.950

janmorzel: Hi, good morning. Thanks for Kyla to attend this zoom meeting and also having listened to all the tricky issues for Twin Lakes. I know that.

646

01:14:50.460 --> 01:14:58.410

janmorzel: The county health department regularly updates their rules and regulations for the, what is that every three or four years. And I was wondering

647

01:14:58.950 --> 01:15:15.030

janmorzel: Whether the county has the willingness or resources to maybe speed that up as the ability to do high level treatment systems and oversight could be quite helpful, not just the Twin Lakes, but other systems to

648

01:15:16.830 --> 01:15:22.530

janmorzel: Is there any intention or willingness to maybe put some more time and effort into the things

649

01:15:24.420 --> 01:15:25.140

Jackie Littlepage - Lake County PH/EH: Thanks young

650

01:15:26.370 --> 01:15:46.620

Jackie Littlepage - Lake County PH/EH: Yes, it's constantly on our radar and something that I'm always discussing with my public health director and advocating for additional resources and funding for my Programs To Expand the onsite wastewater treatment program to include higher level treatment systems and

651

01:15:47.730 --> 01:16:05.070

Jackie Littlepage - Lake County PH/EH: With the new code outbreak. I don't know what that future looks like, but we will continue to have those conversations and you know as soon as we can offer that to the community and I will try to get it implemented and get those regulations updated.

652

01:16:06.270 --> 01:16:06.930

Jackie Littlepage - Lake County PH/EH: Time will show

653

01:16:10.320 --> 01:16:24.180

Larry Marcum: The follow up on my chat question the slurry again. What's up, I'm kind of stumbling over your response and that if the homeowners are going to be paying for the annual review.

654

01:16:25.170 --> 01:16:43.350

Larry Marcum: You know, the engineer review and providing that documentation to the county. Why would there be a need for additional resources at the county to to certify those higher level septic systems, if that's being covered by the homeowners.

655

01:16:46.050 --> 01:16:57.900

Jackie Littlepage - Lake County PH/EH: So part of an oversight and maintenance program is a database and it would be a permitting program to receive automatic inspection reports coming in and

656

01:16:58.830 --> 01:17:07.740

Jackie Littlepage - Lake County PH/EH: It would also be an employee overseeing those permits to make sure that we're not just, you know, having an automated system is not reviewing them.

657

01:17:08.250 --> 01:17:19.440

Jackie Littlepage - Lake County PH/EH: Something was just filing them away and saying, yes, yes, yes, yes, we do need to have an employee then reviewing annual permits and making sure that the systems are being

658

01:17:20.790 --> 01:17:25.260

Jackie Littlepage - Lake County PH/EH: Fixed or repaired and permits are being pulled for repairs as needed.

659

01:17:26.280 --> 01:17:33.360

Jackie Littlepage - Lake County PH/EH: A lot of times those higher level treatment systems. They do have a tendency to break and they can be expensive.

660

01:17:35.010 --> 01:17:52.410

Jackie Littlepage - Lake County PH/EH: So that is one of the reasons why the state requires every county to have a regulation specific to higher level treatment and then an oversight and maintenance program to watch monitor and watch and keep a database. We do not currently have.

661

01:17:54.000 --> 01:17:54.900

Jackie Littlepage - Lake County PH/EH: Those setup.

662

01:17:55.890 --> 01:17:58.140

Larry Marcum: So resources to maintain the database.

663

01:17:59.130 --> 01:18:01.890

Jackie Littlepage - Lake County PH/EH: Correct and employees and

664

01:18:04.680 --> 01:18:21.390

Jackie Littlepage - Lake County PH/EH: Right. The database would have several different components. Again, we have to have a way of receiving the inspection reports coming in, um, it's something that I have been working on through our online RMB program and they do offer a database. So we started in

665

01:18:23.460 --> 01:18:34.530

Jackie Littlepage - Lake County PH/EH: Online permitting so folks can submit their permits online and honestly right now. During code. That's the only way I'm getting permits because I'm not in the office so

666

01:18:35.250 --> 01:18:44.250

Jackie Littlepage - Lake County PH/EH: We don't have a Dropbox or, I'm sorry. We do have a Dropbox, but I'm not getting that Dropbox every day. I'm only going to be office once a week.

667

01:18:45.000 --> 01:19:01.050

Jackie Littlepage - Lake County PH/EH: To check that now so online is currently the new thing. And just last week I had to work with our online RMB and skip the paper web developers, trying to get them to implement a crash course.

668

01:19:02.880 --> 01:19:13.680

Jackie Littlepage - Lake County PH/EH: Online testing for installers in the past installers were coming into the office and sitting for the exam at the office taking four hours.

669

01:19:14.430 --> 01:19:24.510

Jackie Littlepage - Lake County PH/EH: To do a paper exam. And now we have an option for them to submit that exam online through online army and skip the paper.

670

01:19:25.170 --> 01:19:31.950

Jackie Littlepage - Lake County PH/EH: With that said, There's now an additional \$10 fee that each person who is taking that exam has to pay

671

01:19:32.730 --> 01:19:40.650

Jackie Littlepage - Lake County PH/EH: The regular licensing and test exam fee plus a \$10 fee to use the online army and skip the paper database so

672

01:19:41.550 --> 01:20:00.030

Jackie Littlepage - Lake County PH/EH: With that said that ties back into your question. So yes, we have a foundational program out there that we could tap into. But again, it's something that we, I cannot just implement this program overnight. It takes a long stakeholder process.

673

01:20:01.290 --> 01:20:13.440

Jackie Littlepage - Lake County PH/EH: Where the entire community would have to attend stakeholder meetings, they would have to help advocate for the need and for the one for a higher level treatment system.

674

01:20:13.920 --> 01:20:29.130

Jackie Littlepage - Lake County PH/EH: And help convince the county commissioners and the county for implementing that kind of a program and the oversight that it would need and then we'd have to get it adopted and implemented, which could take a year or two.

675

01:20:30.600 --> 01:20:32.100

Larry Marcum: Excellent much for that extended

676

01:20:33.150 --> 01:20:35.280

Jackie Littlepage - Lake County PH/EH: All right. Sometimes I get long winded, you have to cut me off.

677

01:20:35.910 --> 01:20:40.260

Larry Marcum: Really helped put it in to a better perspective for me personally.

678

01:20:42.060 --> 01:20:51.390

Kelly Sweeney: Okay, I did get one question on email and I'm going to go ahead and read it because they're unable to get themselves into the call, are you, are you ready

679

01:20:53.610 --> 01:20:59.610

Kelly Sweeney: That the elephant in the room is that with this additional regulation and cost burden on the owner

680

01:21:00.030 --> 01:21:19.320

Kelly Sweeney: Coupled with very large assessment and taxes are the value of the many properties. Now in probable reduction in value and catastrophic loss of business value or value of the business. What is going to give regulation taxation or regrouping by the county

681

01:21:23.700 --> 01:21:30.540

Jackie Littlepage - Lake County PH/EH: All good questions. If you're referring specifically to the transfer of title program.

682

01:21:32.520 --> 01:21:40.320

Jackie Littlepage - Lake County PH/EH: Honestly transfer of title inspections had been going on before it was actually a regulated.

683

01:21:42.600 --> 01:21:56.430

Jackie Littlepage - Lake County PH/EH: Need and it was implemented through a stakeholder process. So the community got to voice their opinions and vote on implementing that regulation and having that oversight program implemented.

684

01:21:57.570 --> 01:22:16.830

Jackie Littlepage - Lake County PH/EH: The fees. We tried to set very minimal transfer of title fee is \$50 and that's as low as we could go to cover the county's costs of running the program right now. There's the \$10 online RMB skip the paper fee so

685

01:22:18.060 --> 01:22:31.500

Jackie Littlepage - Lake County PH/EH: Essentially, the total cost for a transfer of title permit is \$60 that's 50 to the county and tend to that online program that runs the behind the scenes paperwork for us.

686

01:22:32.970 --> 01:22:33.960

Jackie Littlepage - Lake County PH/EH: I think that's

687

01:22:34.290 --> 01:22:49.560

Jackie Littlepage - Lake County PH/EH: Something we could possibly go and protect the groundwater, but at the same time. Again, it's helping to certify those inspectors and making sure that buyers and sellers are all getting the same kind of treatment across the board.

688

01:22:51.300 --> 01:22:58.200

Kelly Sweeney: Um, I guess that that message was meant for the Commission for Commissioner Marcel if she's still on the line. Sorry.

689

01:23:00.810 --> 01:23:01.440

Commissioner Kayla Marcella: And

690

01:23:02.670 --> 01:23:04.260

Commissioner Kayla Marcella: So I think, um,

691

01:23:05.340 --> 01:23:08.040

Commissioner Kayla Marcella: In terms of us looking at

692

01:23:09.090 --> 01:23:21.660

Commissioner Kayla Marcella: Ways to implement new regulations. I think we as a county have to be able to look at the impact that this is happening across the board because I'm sure that this will affect more properties than those properties out in Twin Lakes.

693

01:23:23.070 --> 01:23:28.590

Commissioner Kayla Marcella: And as far as as things like the assessment process process goes

694

01:23:30.120 --> 01:23:45.990

Commissioner Kayla Marcella: As a board. We don't have much control over that because it's managed by the assessor's office. So, um, so I think our options are just really to look at those regulations holistically and understand what the effects are on on all property owners.

695

01:23:48.180 --> 01:23:54.330

Commissioner Kayla Marcella: In conjunction with Jackie, so that we can we can really find a way to make sure that you know we're

696

01:23:56.430 --> 01:24:04.920

Commissioner Kayla Marcella: working well with understanding what has happened in the past isn't going to happen or not happened. But it's not going to be a one size fits all solution in the future.

697

01:24:09.600 --> 01:24:09.930

Commissioner Kayla Marcella: So,

698

01:24:14.370 --> 01:24:23.370

Kelly Sweeney: I don't see any other questions coming in. And again, of huge thanks to everybody for trying to

699

01:24:24.720 --> 01:24:39.270

Kelly Sweeney: Participate virtually. This is new for a lot of us certainly experience for me actually participating in a video for the entire time and not disappearing, even though I disappeared off screen.

700

01:24:40.800 --> 01:25:02.310

Kelly Sweeney: But I can't thank you all enough especially want you all to think about those who are really suffering in this in this crisis time and I will probably send out a link again for St George's on a build a generation Lake County Disaster Relief Fund.

701

01:25:03.480 --> 01:25:18.300

Kelly Sweeney: Full Circle all of those organizations are working together to make sure that the mini unmet needs of our county are being met. And I know that the city of Leadville and

702

01:25:19.350 --> 01:25:26.970

Kelly Sweeney: The Lake County Board of County Commissioners both have approved \$20,000 to go into

703

01:25:27.510 --> 01:25:48.690

Kelly Sweeney: The disaster relief fund and help people and just yesterday 16,000 of that went out to people who have needs that are not being met, or they don't qualify for the government distance. So thank you all and glaring question.

704

01:25:49.470 --> 01:25:51.240

Commissioner Kayla Marcella: It really is. I go ahead

705

01:25:52.650 --> 01:26:00.300

Commissioner Kayla Marcella: I just had one more quick thing. The, the school district is currently handing out meals to students and their families students

706

01:26:01.860 --> 01:26:09.210

Commissioner Kayla Marcella: I don't know if they need assistance at any of those drop off locations, but there may be an opportunity for volunteering there.

707

01:26:10.620 --> 01:26:18.030

Commissioner Kayla Marcella: I'll send Kelly contact information if anybody's interested, but they've been instrumental in making sure that those students have resources for

708

01:26:19.050 --> 01:26:32.730

Commissioner Kayla Marcella: Learning for social emotional health and have meals at least three times a day. So if anybody's interested I'll be sure to to connect Kelly with that potential volunteer opportunity.

709

01:26:34.020 --> 01:26:34.740

Kelly Sweeney: Thanks so much.

710

01:26:35.460 --> 01:26:36.120

joan: Excuse me.

711

01:26:36.150 --> 01:26:46.200

Kelly Sweeney: For 756 school lunches and the food pantry this last week I think served over 1500

712

01:26:47.100 --> 01:26:53.310

Kelly Sweeney: Individuals when you consider our county only has 1000 people there is a huge need out there.

713

01:26:53.550 --> 01:27:03.480

Kelly Sweeney: And so anyone who has a bit of stimulus check that they got that maybe they don't really need it would be great to give back or to give your time and we have

714

01:27:03.780 --> 01:27:17.100

Kelly Sweeney: Put out that volunteer form sign up, but I will send that out again because I think that Katie from Build A generation is coordinating that but I'm not

715

01:27:17.310 --> 01:27:20.490

joan: I'm a fake to that Kelly. This is Joan

716

01:27:21.990 --> 01:27:25.830

joan: I've been volunteering. This is my second week three days a week from

717

01:27:25.830 --> 01:27:31.680

joan: All three organizations. So I've given out school lunches and I've also helped with the

718

01:27:32.850 --> 01:27:40.410

joan: Food Pantry and Meals on Wheels. I know that Meals on Wheels is going to need More Volunteers after people go back to work.

719

01:27:41.070 --> 01:27:54.600

joan: And the other two organizations, they do have quite a few volunteers already, but they're welcoming more people if people are interested, and I got through on the email that Kelly sent previously.

720

01:28:00.150 --> 01:28:04.950

Kelly Sweeney: Jackie before we go off the air. Do you want to answer Larry's question.

721

01:28:07.620 --> 01:28:13.080

Jackie Littlepage - Lake County PH/EH: Sir, and so I see it says if an expected septic

722

01:28:14.670 --> 01:28:34.920

Jackie Littlepage - Lake County PH/EH: Is found wanting. What is the requirement for getting it repaired. And so when we find failing systems or systems that need to be repaired those repairs need to be made as quickly as possible. If there are extenuating circumstances or if the site is unsafe due to the amount of snow or

723

01:28:36.390 --> 01:28:38.850

Jackie Littlepage - Lake County PH/EH: Like excavation equipment can't get in there.

724

01:28:40.530 --> 01:28:44.130

Jackie Littlepage - Lake County PH/EH: Without getting stuck in the springtime mud or something and

725

01:28:45.300 --> 01:29:05.970

Jackie Littlepage - Lake County PH/EH: There are ways to cap a tank and use it as a vault until the field can be repaired. So again, we try to work with every homeowner on a case by case scenario. So please, just contact me. Let me know your needs and we'll try to move forward with the best situation or scenario for your home.

726

01:29:16.530 --> 01:29:31.320

Kelly Sweeney: Well, I think we're officially wrapped up now and again can't thank you well enough. I do want to remind you that once we go to our main meeting that meeting will start at nine but other than that.

727

01:29:32.160 --> 01:29:51.720

Kelly Sweeney: What a great community we have and what great collaboration and participation from our government leaders we we are so fortunate we are going to thrive, not just survive through this and and be hopefully closer and stronger because of it.

728

01:29:55.440 --> 01:30:06.960

Jackie Littlepage - Lake County PH/EH: Well, thank you all so very much. I do need to leave now. So I greatly appreciate the invite. And you all stay safe and stay healthy and let's stay strong together.

729

01:30:08.100 --> 01:30:10.920

Kelly Sweeney: Thank you. Thank you, Larry for doing this.

730

01:30:11.280 --> 01:30:14.160

Commissioner Kayla Marcella: You have a great weekend. Stay well.

731

01:30:14.880 --> 01:30:15.480

You too.

732

01:30:17.670 --> 01:30:18.660

Larry Marcum: Thanks, all. Take care.

733

01:30:20.610 --> 01:30:22.350

susanramsdell: Bye everybody.

734

01:30:22.950 --> 01:30:23.820

Bye. Marcia
